Bowling Green's Morale Very Low Faculty Contends

BOWLING GREEN, Ohio (AP)—Some 60 faculty members at Bowling Green State University claimed today that "fear and dissension are rampant" at the school and that "morale has never been at a lower ebb on this campus than at the present time."

The statement was an outgrowth of the firing of philosophy department chairman Sherman M. Stange. It was contained in a letter to BGSU's Board of Trustees, which last evening affirmed the nonrenewal of Stange's contract. The faculty group earlier sent a

protest letter to the board, asserting that the real reason behind Dr. Stange's dismissal was his exercising of free speech during a pre-Easter student demonstration.

Stange, at that time, tried to calm some 2,000 demonstrating students. He told them he didn't agree with their method. But he said they should be given the right to express dissatisfaction with alleged campus restrictions and with policies of university President Ralph W. McDonald.

Stange later made a similar statement at a general faculty meeting after the Easter recess. At this meeting, the faculty group contended, McDonald "ridiculed" Stange's address to the students.

Today's letter to trustees said Stange's dismissal "has caused a grave concern among a number of faculty members at BGSU."

It went on to say: "Although the administration has maintained that the dismissal is due to Dr. Stange's failure to build a strong program in religion, it is felt that the basic issue is one of retaliation for Dr. Stange's defense of himself and his expressed opinion on behalf of student rights during the recent demonstration."

President McDonald, however, Monday night denied that Stange's dismissal was a retaliatory action.

The protest letter also expressed a "complete loss of confidence" in McDonald's administration, and also urged that Stange's dismissal be rescinded.

Stange's only public statement so far is that he is appreciative of the loyalty by his fellow faculty members, and is amazed that McDonald pays no attention when they try to advise him.

The 33-year-old Stange, who joined the university staff in February 1959, is on five-year probationary status, as are all new teachers. He gets a one-year contract during each of those years. Last March his contract was renewed for one year, but he has been notified it will not be renewed again.

Youth Claims Negro Gana Beats Him

TRINITY, N.C. (AP)—Robert Parris, 20, employee of a grill, who had been missing all night after a race riot, walked into his home today. He had welts on his back and arms from what he said was a beating by Negroes wielding leather belts.

Parris told officers he had fled from a fight Monday night involving about 40 Negroes and a dozen whites and hid under a house. He said he lost consciousness and did not revive until daylight.

Monday morning, Parris said, three negro youths came into the grill, got drinks and started out. A group of white youths said something to the Negroes.

John McPherson, owner of the grill, told the Negroes to leave before trouble started and as they were leaving, Parris said, one told him: "I'll be seeing you tonight."

An intensive search for Parris had been made after the fight. There were no arrests. Trinity is a community of about 1,000 persons with whites outnumbering Negroes. It is in central North Carolina.

Jackie Kennedy Remains in London

LONDON (AP) — Jacqueline Kennedy stayed behind today while her husband flew home to report to the American people on his European tour.

Mrs. Kennedy is spending two more days in London with her sister, Princess Lee Radziwill, and then taking a private sightseeing trip to Greece.

America's beautiful young first lady has captivated London just as she did Paris and Vienna. Queen Elizabeth II gave what was described as a "good old English dinner" for the President and his wife under soft lighting in the palace's state dining room. Kennedy was the first U.S. President to dine at the palace since Woodrow Wilson in 1918.

Sarah Churchill Fined

BRIGHTON, England (AP) — Sarah Churchill, actress daughter of Sir Winston Churchill, was fined two pounds—\$5.60—Monday for being drunk and disorderly.

TO FIND THE FACTS — Dominican Foreign Minister Porfirio Baez (right) discusses with Mexican Ambassador Vincente Gavito a U.S. proposal to send a fact-finding committee from the Organization of American States to the Dominican Republic. The team will find out if events require expansion or removal of sanctions levelled against the regime of slain dictator Rafael Trujillo.

New 'Freedom Ride' Slated To Test Mississippi Airport

By THE ASSOCIATED PRESS

Seven more "Freedom Riders" headed for Jackson, Miss., by bus today and others planned new moves by air to test Mississippi segregation laws despite threats of stiffer punishment.

Newell Weber of East Orange, N.J., spokesman for the group, said they expected to be arrested in Jackson and would serve out their fines in the city or county jail.

The first fly-in to check on segregation at the Jackson airport was expected to arrive from St. Louis, Mo., Wednesday.

Plans were announced for students from a half-dozen cities to leave Louisville, Ky., early next week for Freedom Rides to several southern cities.

Thirteen more riders were convicted in Jackson Monday raising the total to 65 since the first wave arrived May 24.

None has been charged with violating segregation laws. All were fined \$200 and given 60-day suspended sentences on breach of peace charges. The maximum penalty on that charge is a \$200 fine and four months in jail.

City Attorney Jack Travis said he would demand penalties for future riders and added that other charges might be filed against them.

"The city and state have done all they can to uphold the laws since these so-called riders have come to Mississippi," Travis said. "It appears that a conspiracy, plan or plot exists to completely break down the laws of the state."

Most riders have elected to stay in jail to work out their fines at \$3 a day. Some have started hunger strikes to exasperate their protests over segregation.

Three Cornell University students, all white, broke their hunger strike Monday night. The three, Charles A. Haynie, 25, Douglaston, Queens, N.Y.; Paul Green, 22, New York City; and Joe H. Griffith, 26, Corpus Christi, Tex., had fasted since May 31.

Their decision to resume eating left five white and three Negro prisoners still refusing food.

One of the 13 convicted Monday was the Rev. Richard Gleason, 24, a white Baptist minister from the Bible Witness Mission in Chicago. He announced he had broken connections with the Freedom Riders because they included atheists, persons with police records and some who talked of communism.

Space Kitchen To Sport No Dirty Dishes

WASHINGTON (AP)—A space kitchen in which three astronauts can set up housekeeping in a flight to the moon has had a down-to-earth showing.

If nothing else, the kitchen has one notable merit: No dirty dishes.

The kitchen had its showing Monday at a luncheon, where a young man garbed in an astronaut's suit operated the kitchen to prepare the kind of meal a space traveler might eat.

Moving like a ballet dancer to simulate the free-floating condition of weightlessness in space, he moved from freezer to refrigerator to oven, clutching handles to keep from drifting away.

From the oven he produced a heated can from which he unscrewed a bottom cap, attached a forced-feeder device resembling a potato ricer and fixed a feeding nipple to the can.

He then squeezed the food out of the container, through the nipple and into his mouth.

The kitchen can be stocked with 108 cans of frozen foods like pine and pound cake; 207 canned main item courses like veal steak, ham and eggs, vegetables and potatoes; 618 plastic tubes of dried milk, cocoa, tea, coffee, fruit juices, eggs and steamed rice.

ti, Tex., had fasted since May 31.

Their decision to resume eating left five white and three Negro prisoners still refusing food.

One of the 13 convicted Monday was the Rev. Richard Gleason, 24, a white Baptist minister from the Bible Witness Mission in Chicago. He announced he had broken connections with the Freedom Riders because they included atheists, persons with police records and some who talked of communism.

Germ Warfare Alarm Sounded

U.S. Said Far Behind Russia in Chemicals

WASHINGTON (AP)—An Army spokesman says the Soviet Union has the trained operatives, gadgets and the germs toicken the Pentagon's 30,000 employees in a secret attack.

The Army also warned that the Soviets are so far ahead in both offensive and defensive chemical and biological warfare that it would take the U.S. at least five years to catch up.

In recent testimony before the House Appropriations Committee, Chemical Corps intelligence officer W. E. Black said that the Soviets could start a general war using chemical weapons and sustain it along a major front.

He said that the Soviets were equally proficient in covert operations, citing the possibility of erupting a small vessel of highly infectious material into the ventilating system of a building such as the Pentagon.

Lt. Gen. Arthur Trudeau, Army research chief, said that about one-sixth of the huge Soviet military stockpile consists of chemical warfare weapons.

The Army's chemical chief, Maj. Gen. Marshall Stubbs, testified that all intelligence points with certainty to the fact that the Soviets and their allies are ahead of the United States and its friends in both the use and the defense against chemicals and germs.

The censors pruned out most of what the general said was required to catch up with the Communists.

2 Fliers Start 17-Day 'Moon' Test

SAN ANTONIO, Tex. (AP)—Two airmen have started out to spend as much time in a simulated space cabin as it would take them to fly to the moon and back.

Capt. Lewis C. Gang, 38, and Bernard L. Westfall, 30, began their 17-day, make-believe journey in an 8 x 12 sealed steel tank Monday at 12:15 p.m.

Scientists at the school of aerospace medicine expect the tests will give them a better idea of how men will perform under conditions in space.

Dr. Billy Welch of the school said the 17-day length was chosen because it is the duration of the missions that will be applicable in the next five years.

Louisville Editor Dies

LOUISVILLE, Ky. (AP) — The past president of the American Society of Newspaper Editors and the dean of Kentucky's newspapers, Tom Wallace, is dead at the age of 86. The editor emeritus of the Louisville Times, died Monday.

President Readies His Report to Americans

Commissioners OK Fair Grant

\$3,000 Approved For 4-H Building

The county Board of Commissioners, meeting yesterday in the first day of a scheduled three-day quarterly session, unanimously approved an appropriation of \$3,000 to the Pickaway County Agricultural Society.

The funds were granted under the specific provision, required by law that they be used solely for the construction and maintenance of the new 4-H building now being erected at the society's Fairgrounds.

The 4-H structure, it was noted in allocating the money, will provide an urgently needed addition to the youth exhibition programs at the annual County Fair. It will also serve as a general meeting place for area 4-H groups.

The Commission adjourned to the Fairfield County Courthouse in the afternoon to meet with that county's commissioners as a joint board.

THE UNIFIED board was called into being to facilitate the abandoning of Pickaway County Road No. 15, which lies on the Pickaway-Fairfield County line in Walnut Twp.

Further discussion is slated before final action can be taken in this matter.

The Commission will meet all day tomorrow to wind up its review of quarterly finances and activities.

5-Nation Panel Plans Dominica Visit

WASHINGTON (AP) — A five-nation special commission is expected to leave Thursday to determine whether the Dominican Republic is moving toward more freedom for its people or toward an even tighter dictatorship.

A seven-nation committee of the Organization of American States voted Monday to send the commission to investigate conditions in the Caribbean country following the assassination last week of dictator Rafael Trujillo.

The unanimous acceptance of a U.S. request for the investigation came after Dominican Foreign Minister Porfirio Herrera Baez said his country would welcome the special mission.

The decision marked the first victory in an inter-American agency for the administration of President Kennedy. The United States had strong support in the proposal from other American republics but the initiative clearly came from Washington.

The OAS last August at San Jose, Costa Rica, charged that the Trujillo government plotted an assassination attempt on President Romulo Betancourt of Venezuela and voted that all American republics should break diplomatic relations with the Trujillo regime.

A special committee sent to the Dominican Republic last year to conduct an investigation was not permitted to travel freely and conduct its business.

OAS officials said it appeared probable the special five-nation commission would depart Thursday morning from New York. Its members are Panama, the United States, Argentina, Mexico and Uruguay.

Jersey GOP Candidate Suffers Broken Leg

CAMDEN, N.J. (AP)—James P. Mitchell, Republican candidate for governor of New Jersey and former secretary of labor, suffered two fractures of his left leg in a fall at his hotel room early today.

Herbert Holran, executive director of Mitchell's campaign, said Mitchell was going to the bathroom, slipped on the tile and fell heavily to the floor.

Saturn Launching Pad Is Ready

CAPE CANAVERAL, Fla. (AP)—Construction has been completed on the launching site from which early Saturn space vehicles will be fired.

The super rocket, which will generate 1½ million pounds of thrust on liftoff, is America's best hope of overtaking the Soviet lead in the space race.

The National Aeronautics and Space Administration dedicated the \$11-million facility Monday, accepting it from the Army Corps of Engineers in a brief ceremony.

Engineers supervised the two-year building program for the massive 45-acre complex, whose centerpiece is a service tower which is as tall as a 30-story building.

Scientists and technicians now will prepare the ground support and launch control equipment for the first experimental Saturn firing, set for next fall.

Dr. Kurt Debus, head of NASA's launch operations directorate, called the complex "the first launch point for the world's greatest rocket."

"Saturn," he said, "will be the workhorse booster for many exciting space experiments planned in the next decade."

"The main application of the Saturn launch vehicle will be man into space. Not too many years hence, three astronauts will be blazing toward an orbit about the moon atop the mighty Saturn."

The early Saturn C1 vehicle will be fired from this launch pad. A second stage will be added later, giving the rocket capability of placing 10-ton payloads into earth orbit.

A second Saturn launch complex will be built here to handle the advanced C2 vehicle, which will have considerably more power and twice the payload capability.

This nation's present largest space booster is the Atlas, which has 360,000 pounds of thrust. Estimated thrust of the Soviet space rockets ranges from 800,000 to one million pounds.

The faculty petition declared that they must meet in secret for fear of "reprisals" by McDonald and that the faculty is "dominated" by him.

The petitioners made no demands, but they said they "expect" the dismissal of Dr. Stange to be immediately rescinded.

Goldfine Jail Term Hinges On Disclosures

BOSTON (AP)—Upon Bernard Goldfine's willingness to make full disclosure of financial manipulations exceeding \$600,000 depends the length of his stay behind bars, federal sources said today.

The ailing 70-year-old industrialist, being a jail sentence of a year and a day for evasion of nearly \$800,000 in federal income taxes, could win freedom in four months, these sources said, or might be imprisoned 2½ years.

A special committee sent to the Dominican Republic last year to conduct an investigation was not permitted to travel freely and conduct its business.

OAS officials said it appeared probable the special five-nation commission would depart Thursday morning from New York. Its members are Panama, the United States, Argentina, Mexico and Uruguay.

Goldfine, born in Russia, made a fortune in textiles and real estate and spent freely on gifts for influential men. A congressional committee threw a spotlight in 1958 on his lavish gifts and hospitality for government officials.

Out of that came the resignation of former Gov. Sherman Adams of New Hampshire as White House assistant to President Dwight D. Eisenhower. Adams admitted Goldfine had paid some of his hotel bills and given him an expensive vicuna coat.

They also explained that McDonald is chairman of the faculty council "which meets only at his invitation and then considers an agenda which the president sets up."

"Since the faculty meeting is controlled by the faculty council, which is controlled by the president, faculty meetings are in fact controlled by the president. Important issues have never been allowed by the president to come before the general faculty."

Astronaut Tells Of 'Vibrations'

Shepard's Vision Is Fogged Briefly

WASHINGTON (AP) — Astronaut Alan Shepard disclosed today that rocket vibration fogged his vision briefly in the early part of his historic 15-minute space flight a month ago. But he said just about everything else went well.

Shepard said that as the result of his difficulty, some changes have been ordered in the Mercury capsule design to reduce vibration during the crucial moments just after launching.

Shepard made the observation in a paper prepared for delivery to 300 physicians and research scientists at a conference on the medical results of the first U.S. manned suborbital space flight last May 5. He rocketed to an altitude of 116.5 miles before landing in the ocean 302 miles from the Cape Canaveral, Fla., launching site.

Shepard said the roughest part of the flight came as the rocket accelerated through the speed of sound and then passed through the point of maximum dynamic pressure. That was the point at which the Redstone rocket and the capsule it carried were subjected to the most severe combination of acceleration forces and atmospheric resistance.

"These events occurred very close together on the flight, and there was general vibration associated with them," Shepard said.

"At one point my head vibration was such that my vision was blurred for a few seconds."

"We intend to avoid a recurrence of this experience by providing more foam rubber for the head support and improving the space craft adapter ring."

Shepard said he had no other difficulty during the powered flight and found no problem in breathing, seeing, or reporting to the ground.

Local Stores Ready Sales

Savings will be at a maximum here tomorrow when local merchants feature their Wednesday Morning Specials.

At least 16 stores have lined up specials for the morning's business. Many of the sales are listed on the inside pages of today's Herald.

The majority of stores participating will be open from 9 a. m. to noon. The merchants will stand ready to serve local and area consumers.

The bargains are designed as prime money savers for customers. Sale articles will range from clothing and food to house paint with the accent placed on summer buying.

2 Ohio Women's Clubs Cited by Federation

MIAMI BEACH, Fla. (AP)—The Lorain and Sidney, Ohio, women's clubs came in first and second, respectively, in a traffic safety campaign contest conducted by the General Federation of Women's Clubs. The federation holding its annual convention here, presented savings bond and merit certificates to the winners Monday.

Appearance Due On TV Tonight

Kennedy Ends Talks With European Chiefs

WASHINGTON (AP)—President Kennedy, back from conferences with leaders in Europe, this afternoon was working on the report he will make to the American people tonight.

Kennedy arrived at Andrews Air Force Base at 9:33 a.m. after a week during which he saw Soviet Premier Khrushchev, French President Charles de Gaulle and Britain's Prime Minister Harold Macmillan.

The President stepped from his jet plane to a small but warm welcome at the airport. Congressional leaders of both parties, diplomats and administration officials greeted the returning chief. Kennedy walked down the receiving line and shook hands with each of the approximately 70 people in it.

Then, in a show of bipartisanship, he took both Sen. Everett M. Dirksen of Illinois, the Senate Republican leader, and Senate Foreign Relations Committee Chairman J. W. Fulbright, D-Ark., to his waiting helicopter to ride with him to the White House, 15 miles away.

At the executive mansion, Kennedy planned to work during the day on the speech he will broadcast at 6 p.m. Eastern Standard Time tonight. It will be carried by all major television and radio networks.

Dirksen, asked by newsmen about his discussions with the President, said Kennedy appeared to have been "very much impressed" with De Gaulle and "very much pleased" with his conversations with the French president.

He said Kennedy also was pleased about the results of his conversations with Prime Minister Macmillan.

Dirksen declined to say anything as to Kennedy's impressions of Soviet Premier Khrushchev.

"I will have to wait until I have a chance to ask the President what I can say about this," Dirksen told reporters. "I always did that with President Eisenhower and President Kennedy is due the same consideration."

The White House announced that Kennedy was asking Democratic and Republican congressional leaders to meet with him later in the day so he could give

(Continued on Page 2)

More Stress On Business Ethics Urged

WASHINGTON (AP)—Secretary of Commerce Luther H. Hodges said today that business leaders should do more to impress on their own employees the importance of adhering to the antitrust laws.

Hodges testified before the Senate Antitrust and Monopoly subcommittee, which has been investigating price fixing in the electrical equipment industry.

He said he believes that the American businessman is committed to finding a way to both live within the law—particularly the antitrust laws—and to compete fairly, honestly and helpfully.

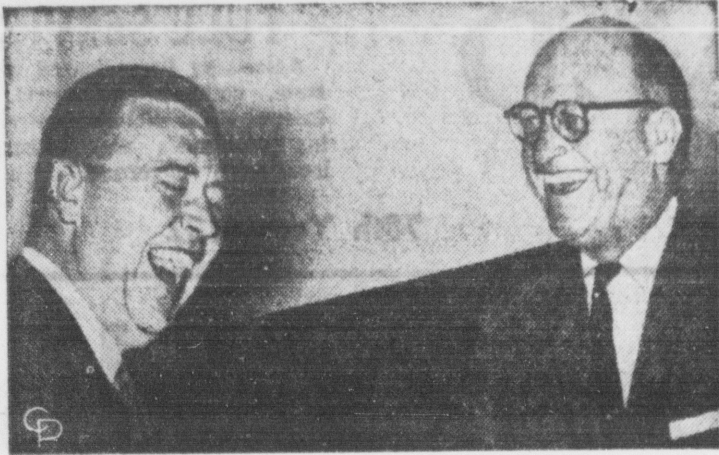

But Hodges said that big business does have some special problems and perhaps one of its great failures is a failure in communication.

"Management of corporate America must assume the responsibility for a more aggressive program of acquainting its own people with its policies, its commitments and its philosophies," he said.

Hodges noted that he has appointed a Business Ethics Advisory Council composed of 26 outstanding business men, educators, philosophers and religious leaders.

"Their task is to discover and fashion tools that businessmen can use to pursue their own search for the highest ethical performance, and to find ways of educating and encouraging management to use them," Hodges said.

FAMILY REUNION—Two sons of the late Franklin D. Roosevelt seem to have gotten each other in stitches over something or other in this Washington scene. Their paths crossed as John (left) testified on welfare fund legislation before a committee of which James (right) is chairman. James represents a Los Angeles area congressional district.

Circleville Kiwanis Observes Anniversary, Ladies Night

The Circleville Kiwanis Club observed its 32nd Anniversary with a "Ladies Night" dinner last night at the Mecca Restaurant.

The Circleville club was chartered in 1929. Initial meetings were held in the old Boggs building where the post office is now located.

C. E. Hill, Williamsport, an original charter member, gave a few remarks concerning past history of the club. He said 13 of the original members are still living and 12 are deceased.

Another highlight of the evening was a talk and presentation of slides by Miss Barbara Barthelmas, Route 2. Her interesting program covered her trip to Asia and the South Pacific last summer.

MISS BARTHELMAS, a Circleville High School graduate and a nurse at the Veterans Hospital in Chillicothe, said she met many interesting persons during her tour. She said the people of Southeast Asia seemed to fear the spread of Communism in their area of the world.

During the business session conducted by President E. R. Bennett, it was announced that the Circleville Club will join for an inter-club in Dublin Thursday. The program there will be presented by Police Chief Robert Temple and Juvenile Probation Officer Ralph Starkey, local members.

George Hartman of the program committee said next week's schedule will feature a talk by Col. Paul Lindimore of the State Civil Defense office.

Other activity on the agenda includes a picnic and outing at the Kiwanis Youth Camp in Hocking County June 19. A special gavel presented to the Kiwanis Club by G. Guy Campbell

has been mounted in a glass case by Kiwanian Dale Ankrum. The gavel and case was presented to President Bennett who accepted it on behalf of the Kiwanis Club. President Bennett announced a directors meeting set for Thursday at his home in Knollwood Village.

Mainly About People

Margaret Jean Mader, daughter of Mr. and Mrs. H. Sheldon Mader, 3931 Holman Circle, Cincinnati, will be graduated from Regina High School June 8.

Come to the Walnut St. Greenhouse for potted rose bushes at 20 per cent discount, also blooming plants for flower boxes. —ad

Mertie Mauller, Route 1, Amanda has been treated and released at Lancaster - Fairfield Hospital.

You have only until June 15th to renew your membership at the Circleville Swimming Club. —ad.

Betsy Botts, Amanda, has been dismissed from Lancaster - Fairfield Hospital.

Mrs. Mary Alice Webb, Mt. Sterling, has been admitted to Fayette Memorial Hospital, Washington C. H.

Charles Hampton, New Holland, has been admitted to Fayette Memorial Hospital, Washington C. H.

Mrs. Ethel Hysel, Mt. Sterling, has been dismissed from Fayette Memorial Hospital, Washington C. H.

Mr. and Mrs. William Edmonson, New Holland, are the parents of a son born Monday in Fayette Memorial Hospital, Washington C. H.

Linda K. Stevens, Kingston, has been admitted to Chillicothe Hospital.

Berman W. Ralston, Route 1, Kingston, has been dismissed from Chillicothe Hospital.

Mr. and Mrs. Roger Schneider, Route 3, are the parents of a son, John David, born today in University Hospital, Columbus. Mrs. Schneider is the former Jane Smith.

Mr. and Mrs. Bill Robinson, Ft. Lauderdale, Fla., are the parents of a son, Barry John, born May 31. Mrs. Robinson is the former Treva Gaines, daughter of Mr. and Mrs. Paul Gaines, 623 S. Clinton St.

Charles Caldwell, 211 Walnut St. was admitted yesterday to University Hospital, Columbus, as a surgical patient. He is in room 621.

Berger Treats 3 Lacerations

Three youths were treated at Berger Hospital yesterday for lacerations.

Deborah Murry, 5, daughter of Mr. and Mrs. Earl Murry, 360 Avon Dr., lacerated her right index finger on a swing.

Patty May, 15, Route 2, Williamsport, cut her left hand with a butcher knife.

Scott Hill, 3½, son of Mr. and Mrs. Frank Hill, Steubenville, ran into a wire fence and received a puncture wound on his knee.

Scouts Check 122 Vehicles At Ashville

Members of Boy Scout Troop No. 159 inspected 122 vehicles during their first "Auto Safety Check" Saturday in Ashville.

Operating three check lanes on a side street at the west edge of the community, the Scouts examined 10 traditional safety trouble spots on the cars.

The alert eyes of the 10 boys uncovered 13 autos operating with faulty or defective equipment. Emerson Cline, Scoutmaster for the troop, commented "Most of the motorists weren't even aware that such difficulty existed on their autos."

Two autos were rejected because they had defective headlights; five of the cars inspected had tires that were worn too thin; broken glass accounted for a pair of the rejections; two defective exhaust systems were discovered.

POOR or malfunctioning brakes was responsible for one of the rejections and another car was found to have defective windshield wipers.

Five of the cars returned later in the day with the faults corrected and received the "OK" emblem of safety approval for their windshield.

Scouts operating the lanes all morning and most of the afternoon were Andy Ward, Jim Smith, Dean Glitt, Tommy Cline, Luther Hafee, Richard Barr, Gary Rife and Bob Johnson.

Supervising the program were Emerson Cline, Robert Barr and Win Story.

The lanes were sponsored by the Pickaway County Traffic Safety Council in conjunction with Ashville Police Chief Glen Clay.

Burglars Not Choicy Here

It seems even burglars are "hard-up" these days.

The Circleville Police Department received a call yesterday to investigate a burglary at the Salvation Army Store, W. Main St.

Mrs. Dawson, manager of the store, said entry was made by breaking the glass in a rear window.

She said several articles of clothing were missing. However, there was no estimate of the amount because the truck had just made a delivery Saturday.

The burglary, along with several other thefts recently, are still under investigation by the local police department.

Council Slate To Be Heavy

A heavy volume of business is expected when Circleville Council meets in regular session tonight at City Hall.

Agenda discussions probably will include reports on the Sewer District No. 2 proposal. An ordinance concerning a test drill regarding the proposed Waterworks Improvement proposal here will come up for second reading. The measure was held to first meeting at the last council meeting.

Lawmakers also probably will hear a report on progress of the street repair program which is now under way.

Dem Committee Meets Thursday

The Pickaway County Democrat Executive Committee will meet 8 p. m. Thursday in the basement of the Elk Lodge, N. Court St.

A new chairman of the Pickaway County Board of Elections will be named during the meeting.

The vacancy on the elections board is due to the appointment of Ted Corcoran, chairman of the board, as a rural mail carrier in the Williamsport area.

Other members of the Board of Elections are George Fissell, Ned Dresbach and Milton Manson.

Couple Married

An Orient area couple was married yesterday in a civil ceremony in Circleville Municipal Court. Judge Sterling M. Lamb read the vows for Raymond Burchett, Route 1, Orient, and Anna Holbrook.

Deaths and Funerals

EDWARD WILLIAM ADAMS, Mr. Edward William Adams, 25, near Hallsville, died yesterday at the home of his parents following a lengthy illness.

He was born August 3, 1935, in Harrison Twp., the son of Andy and Martha Ward Adams.

Mr. Adams is survived by his parents; a brother, Donald L., of the home; maternal grandmother, Mrs. Lottie Ward, near Hallsville; and paternal grandmother, Mrs. Julia Adams, Bainbridge.

Services will be 2:30 p. m. Thursday at the Church of the Brethren, near Tucson in Ross County.

Burial will be in the cemetery adjoining the church. Friends may call at the funeral home beginning 6 p. m. today and at the residence beginning 11:30 a. m. tomorrow.

CARL R. SEYFERT

Carl R. Seyfert, 76, a native of Circleville, died yesterday at his home in Rye, N. Y.

Seyfert was born in Circleville June 4, 1885, the son of Mr. and Mrs. Max C. Seyfert Sr. For many years he was a prominent pharmacist in Cleveland.

His wife, Rose Keenan, preceded him in death.

Seyfert was a member of the Lutheran Church.

He is survived by a daughter, Mrs. Robert Carroll, Rye, N. Y., and a brother, Max C. Seyfert, 119 S. Pickaway St.

Funeral arrangements, under direction of the Mader Funeral Home, are incomplete.

Appearance Due

(Continued from Page 1)
them a first-hand report on his trip.

In tonight's talk, Kennedy is expected to deal largely in generalities in reporting his conversations with Khrushchev. But it seemed certain that he will reaffirm the West's determination to stand solidly against any new Communist thrusts in Berlin and other danger spots.

Members of Congress—divided between hope and skepticism—eagerly awaited Kennedy's report.

Congressional Democrats generally were optimistic that some improvement in East-West relations might grow out of the Kennedy-Khrushchev meeting in Vienna, even though no concrete results had been anticipated. Republicans were more skeptical.

Senate Democratic Leader Mike Mansfield of Montana said he believes the conversations were "well worth while" and may have contributed to laying the groundwork for lower-level negotiations on East-West differences.

Sen. J. William Fulbright, D-Ark., chairman of the Senate Foreign Relations Committee, said it seemed to him the Vienna meeting "well served the purpose of getting the two leaders acquainted" and giving them an opportunity to talk over the world situation.

Sen. Barry Goldwater, R-Ariz., a spokesman for GOP conservatives, said he doubts that the meetings will alter the world situation in any way.

"About the best we can say is that they didn't do any harm—so far as we know now," he said.

Court News

MARRIAGE LICENSE ISSUED

Raymond Burchett, 36, of Route 1, Orient, farmer, and Anna Holbrook, 37, of Route 1, Orient, housewife.

Stevenson Heads For Argentine

CARACAS, Venezuela (AP) — Adlai E. Stevenson heads for Argentina today after a 48-hour visit to Venezuela's capital, first stop on his presidential mission to Latin America.

Although no agreements were sought on concrete problems, Stevenson made known he was pleased with the results.

For one thing, he was reported reassured by President Romulo Betancourt's continued firm stand against dictatorships in Latin America, of both the left and right complexion.

The chief U.S. delegate to the United Nations also was gratified by the warm personal reception he received in the city which displayed violently anti-U.S. feelings to Vice President Richard M. Nixon on three years ago.

Stock Mart Prices Today Are Irregular

NEW YORK (AP) — A patchwork of small plus and minus signs left the stock market in an irregular pattern early this afternoon. If there was any trend either way, it was upward.

The Associated Press 60-stock average at noon was up .30 at 252.40, just below its record closing high achieved last month. Industrials were up .20, rails up .30 and utilities up .20.

Steels were lower.

Trading was moderately active. Wide movers were few and far between, although Woolworth moved up another 3 and Standard Oil of California rose 1½.

Chemicals were strong, with Air Reduction up ¼ and other leading issues fractionally higher. Rubbers also moved up small amounts, but other industry groups were pretty well scrambled.

Boeing was off 2¼.

U.S. Gypsum failed to rally from a 1¼ loss, International Harvester was down a point, Kennecott down a like amount and Sundstrand off 2¼.

Most electronics were fractionally higher. Small gains were numerous among rails and tobaccos.

One-eighth changes up and down were the rule among motors.

The Dow Jones average of 30 industrials was up 1.86 at 705.29.

Corporate bonds were mixed. U.S. government bonds advanced.

Northerners Told: 'Sweep Own Yard'

NEW YORK (AP) — Former President Harry S. Truman today advised two young Northerners interested in Southern desegregation to "sweep your own yard first."

"It's eager beavers who cause all the trouble," Truman commented to newsmen on his morning stroll. "Nine times out of ten their own back yard needs cleaning worst. They give me a pain in the neck."

Two antisegregationists had joined in the walk. They said they were Joel Geier, 22, of Chicago, national secretary of the Young Peoples Socialist League; and Thalia Syracopolus, 18, of 897 Delia Ave., Akron, Ohio.

Woman Pleads Innocent As Fatal Drunk Driver

PAINESVILLE, Ohio (AP) — A Perry, Ohio, woman has pleaded innocent to a charge of driving while drunk in connection with the death of a 4-year-old Painesville girl and critical injury to her brother, 3. The Lake County prosecutor said other charges are being studied.

Mrs. Edward Reister, 46, entered the plea in Municipal Court Monday and was freed on \$500 bond. Elaine Rice was crushed to death Sunday when Mrs. Reister's car lurched out of control and pinned the girl and her brother, Gary, against a house.

Leist To Be Honored By Waterworks Heads

Ervin Leist, city utilities director, is in Detroit this week attending a convention of the American Waterworks Association.

Leist is slated to receive an award from the Association for his efforts to better the public utilities of Circleville.

The first school for officer candidates in the Women's Reserve of the U. S. Marines Corps was established in 1943 at Mt. Holyoke College in South Hadley, Mass.

WINNERS — Peggy Ann Clark, left, is Pickaway County's Dairy Princess for 1961. On the right is Betty Lou Leist, named second in the contest. Both hold cups presented by Extension Agent George Hamrick following judging last night at the Pickaway County Fairgrounds. (Staff Photo)

Peggy Ann Clark Is Named Dairy Princess for County

Miss Peggy Ann Clark, daughter of Mr. and Mrs. Clarence Clark, Route 2, was named Pickaway County's official Dairy Princess last night at the local Fairgrounds.

Second place went to Miss Betty Lou Leist, daughter of Mr. and Mrs. Loring Leist, Route 4. Miss Clark will represent Pickaway

County in the coming State Dairy Princess contest.

Winning the award marks another accomplishment for Mrs. Clark who reigned as the 1960 Pumpkin Show Queen. The charming princess is a graduate of Williamsport High School and plans to enter Ohio State University in the fall.

Miss Clark and Miss Leist were selected from a field of five entries. They were named following an interview by a panel of three judges and speaking appearances before a group.

JUDGING was conducted by Mrs. Doyle Painter, Lynwood Ave., Alvin Recobs, RFD, Ashville, and Paul Smallwood, editor of The Herald.

The new Dairy Princess was vaudeictorian of her class and a member of the National Honor Society. She has received many other scholastic honors and has participated in 4-H Club work for nine years.

Miss Leist is a graduate of Circleville High School and has received numerous scholastic honors. She is employed at the Second National Bank in Circleville and currently serves as a 4-H adviser.

Junior High Suggestions

Educators, in what has become a continuing program of self-criticism, improvement in technique and discussion of ways of improving the rudiments of education, have turned a critical eye toward their own invention, the junior high school. The intermediate years of schooling between the elementary grades and high school have changed little since JHS was started 63 years ago.

Yet these are often the most difficult years for pupil and teacher alike. For the adolescent, it is a period of physical maturity, a transition from the mind of a child to that of an inquiring adult. To the teacher, the seventh, eighth and ninth years of school are the springboard to mental growth, the period when a child's future may be determined by his attitude, his mental stimuli and his developing individuality.

Frequently, the adolescent years are the most difficult to guide along the route of preparation for higher scholastic work. How can this be accomplished more satisfactorily at a time when individual class-

room attention seems to be declining? There may be an answer, although it will bring frowns to youthful faces. Cut down on the number of days in a year when school doors are locked and the accumulation of knowledge goes on an extended holiday. Possibilities of a longer school day and shorter summer vacation have been suggested by the National Education Association in a pamphlet entitled "The Junior High School We Need."

Extension of the school term is not suggested to provide more time for more subjects and harder curriculum, the pamphlet says, but to provide more time to insure a better understanding of today's lessons. The four educators who compiled the booklet advocate a longer school day (8:30 to 4:30) to provide a lunch period of at least 45 minutes and "food breaks" morning and afternoon.

They have watched pupils squirm in their seats through hours of study and have found the reason to be hunger. Industry long ago recognized the value of brief rest periods in maintaining productivity and efficiency at peak levels.

2-Word Recipe To End Tension

NEW YORK (AP) — Sophia Loren has a two-word recipe for avoiding nervous tension: "Please yourself."

The onetime waif of Naples in less than a decade worked her way up from modeling to become one of the world's busiest as well as most beautiful actresses.

Sophia took me to lunch the other day during a break in the task of dubbing in English dialogue for her 30th film.

"I have the philosophy of a peasant," she said. "Take it easy—everything is going to be all right."

Lunching with Miss Loren is more of a treat than going to see her in a movie.

Sophia showed up in a pink sheath dress. Her enormous green eyes, flecked with gold, gave her the look of a half-panther.

Gazing out a 48th floor window at all the new buildings rising in mid-Manhattan she exclaimed:

"It must get tired—holding up so many, many tall buildings. Aren't you afraid some day it will all sink?"

Walters fluttered up, cooing solicitously in several languages. "I love to eat," said Sophia. "It's my only pleasure while working. I like any food that is spicy and full of sauce."

Chattering charmingly, she went from an aperitif through a small plate of sliced tongue and ham, a dish of kidney stew, potatoes and vegetables, two glasses of red wine, two bread rolls, then wound up with a big slice of cake topped with whipped cream.

She is a tall girl with a lot of lovely body to fuel, and so far she doesn't have to worry about gaining weight. It's a real pleasure to eat with a woman like that—particularly if you go as a guest.

"There are some people who

add up their calories as they eat," she murmured. "I prefer to add up the number of dishes."

Sophia doesn't feel that success has changed her much since the childhood days when she felt herself to be a thin and gawky ugly duckling. She is poised, friendly, and completely self-possessed.

"I'm very strong. I have always tried to keep myself as naive and innocent as possible," she said.

"But I like to work hard, and don't believe in drifting. I never liked to be taken by the routine of life—or to become tense and nervous."

"It is a hard thing to do, but I try to look at things in a relaxed way."

"I think you get tense only by doing things you don't really want to do. So I please myself. I do only the things that please and interest me. Why not? When I get tired, I'll stop."

Best Dollar Interests

Congressman Abraham Multer has written to me about his bill to withdraw the present twenty-five per cent gold coverage of the dollar. Modestly he says:

"I am prepared to concede that we may be wrong. I will not concede, however, that all of the people who approve the principle proposed by H. R. 6900, are anything but good Americans, who have the interest of their country at heart. This goes for the President's Task Force on the Economic Situation and Balance of Payments, headed by Allan Sproul, former president of the Federal Reserve Bank of New York; the vast majority of the members of the Committee for Economic Development's Research and Policy Committee, headed by T. V. Hoar, former chairman of Sears & Roebuck & Company; John J. McCloy, chairman of the Chase Manhattan Bank; Henry C. Alexander, chairman of the Morgan Guaranty Trust Company; Roy L. Reiser, senior vice president and chief economist of the Bankers Trust Company; and many other respected businessmen. . . ."

The question is not whether these men are good Americans. It would be a task to define a good American and then to fine-comb careers and reputations to decide whether these gentlemen belong to the noble category of good Americans or whether they are motivated by self-interest or whether they are pursuing an economic dogma which accepts fiat money. Also men may have "the interest of their country at heart" and be utterly confused and damaging.

Therefore, I for one, must ignore the list of names which Congressman Multer presents as an ad hominem argument. However, the Congressman does raise a question in his letter which deserves serious consideration. He says:

"... your Federal Reserve note (most of our currency) is guaranteed not only by the surplus and assets of our Federal Reserve Banks (they are all owned by the United States Government) but, in addition, are backed by every dollar of assets of the United States Government. Those assets are many times more than enough to meet all the obligations of the Federal Reserve Banks. The twenty-five per cent gold reserve is not needed to make up any possible deficit."

This raises the question of what are the assets of the United States.

Our budget does not include these assets. Our Treasury's annual reports do not include the assets. Our federal bookkeeping system is based on the simple method of accountancy, namely income and outgo, much like a housewife handling a check-book. No business could survive such accounting methods.

The assets of the United States Government are enormous and could if properly audited and accounted for, provide ample coverage for the American dollar. This government owns, for example, an enormous quantity of real estate, some of it of great value. No accounts are kept of these assets. They are rather dealt with only on the basis of erection and maintenance expenditures. The United States Government owns more than half a hundred corporations, some of which could, by proper accounting, be established as profitable. They are either assets or liabilities. These corporations are enormous properties, as for instance, TVA. They are carried on the books as decisions of Congress rather than as assets or liabilities.

If Congressman Multer means that the American dollar should be protected by the assets of the

United States Government, then he has to arrange that our federal bookkeeping system be revised. That would be an extremely constructive measure. It would represent a step forward in government financing. It might prove embarrassing to some officials who dislike auditing as the devil hates holy water, but it might even encourage the sale of some government assets, the fund to be used to reduce the national debt.

I fear that the legislator is emotional about the virtue of the dollar. He says:

"... I for one, as an American, do not require my government to back up its guarantee with a gold reserve."

This paragraph does not deal with the economics of the dollar. It is Multer's response to the perfection of the American government which, while laudable, is ultra vires. The United States has defaulted on its obligation in the gold content of the dollar. The case went to the Supreme Court as Congressman Multer well knows.

There can be no sentiment about money. It is accepted because of confidence or coercion. It is rejected out of fear. It is not something to be loved for its own sake.

Looking Back in Pickaway County

Five Years Ago
William A. Ragan, Williamsport, won the Stewart Handicap Trophy at the Pickaway Country Club.

Warren C. Leist, son of Mr. and Mrs. Carl Leist, 205 Northridge Road, was a member of the graduating class of Capital University.

A public hearing was scheduled for the rezoning of 10 acres on the north side of the Hargus Creek Bridge on Pickaway St.

Ten Years Ago
Groundhogs in Pickaway County were removed from the protected animals list.

Factory whistles and church bells were in unison operation to initiate the 1951 Cancer Crusade.

A fresh grave in a county cemetery was exhumed by Sheriff Charles Radcliff. It turned out to be the body of a bull dog.

Twenty-Five Years Ago
WPA workers completed the installation of a 10-inch storm sewer on S. Pickaway St.

Pat Kirwin, a senior in the school of journalism at Ohio State University, accepted an editorial position with The Cincinnati Post.

Pictures of Circleville's first fire truck were presented to City Council by John C. Goeller.

The American Automobile Association after reviewing current costs, estimates the daily budget for two persons traveling by car on vacation at \$29.

"It'll do you good to forget business for a couple of hours!"

Try and Stop Me

By BENNETT CERF

"FILBERT," said the town's leading social worker sadly, "the last time you came to mow the lawn you made me happy because you were sober. Today you made me miserable because you are in-toxicated."

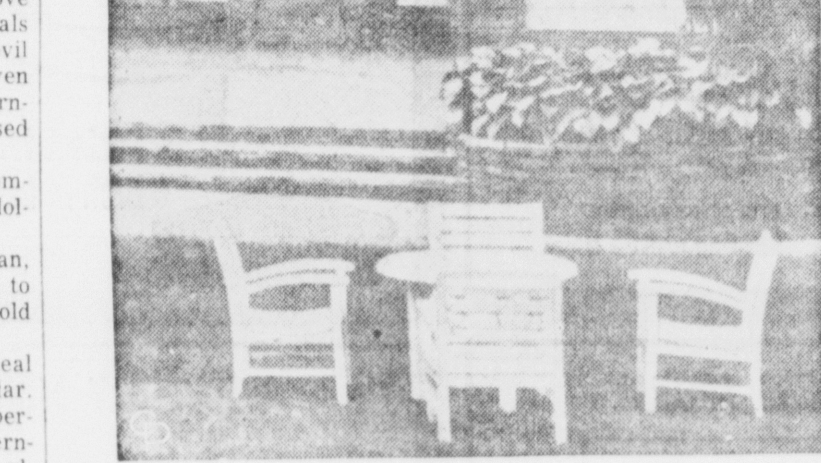

"Yes, ma'am," beamed Filbert. "Today it's MY turn to be happy."

"Do you know what those darn Russians are up to now?" grumbled an indignant business man. "They're making the world's most beautiful girl. They're using Elizabeth Taylor's eyes, Brigitte Bardot's mouth, Ginger Rogers' legs, and Marilyn Monroe's back."

"Boy, oh boy," moaned a man at the next table, "what I could do with what they're throwing away!"

A fugitive from Prague, seeking frantically to elude the secret police, rapped on the door of a sidestreet cafe and whispered hoarsely, "Do you suppose you could cache a small Czech?"

Inside You and Yours

By BURTON H. FERN, M.D.
Mrs. Smith didn't know that the doctor had found many cysts in both her breasts.

Female hormones shape these cysts. Similar cysts may develop as you grow older. Eight out of ten women have them.

By the end of each menstrual month, female hormones have started preparing Mother for nursing. Milk glands and passages thicken and swell. Perhaps you feel this tender swelling.

When hormones disappear and menstrual flow begins milk glands shrink to normal—and the whole cycle begins again. But, most months, hormones reappear before these glands and passages shrink all the way.

All because you're too feminine! Like a 20-year mortgage, each monthly gain builds until you acquire this cystic condition.

Few women under 35 find their milk glands and passages bulging into pinhead-sized cysts. Cancer-conscious women usually notice a lump before anything else. In sensitive areas, tiny, invisible cysts may crush nerve endings to trigger pain.

But no knife-like pains or pins and needles here! The swollen tissue simply feels heavy and aches. Usually this discomfort disappears with the menstrual flow, to return a week or two later.

Are these cysts cancer? No! Some doctors think that they may become cancerous. Others believe that a growing cancer can hide behind them at any time.

Your doctor will run all possible cancer tests. At the slightest suspicion, he'll want to treat for cancer, just in case.

Male hormones and similar chemicals that neutralize female hormones almost always relieve those heavy aches. Later, the cyst will melt away, as female hormones disappear during change of life.

These cysts won't disappear in a flash, but they will after many hot flashes!

Dr. Fern's mailbox is wide open for letters from readers. While he cannot undertake to answer individual letters, he will use readers' questions in his column whenever possible and when they are of general interest. Address your letters to Dr. Fern in care of this newspaper.

The Business World

NEW YORK (AP)—Debt continues to mount, if jerkily. The recession slowed the increase of the total of private debt. But there's a good chance today that both public and private debt are ready for another spurt.

Since World War II, total debt and national income have kept pretty closely in step with each other—speeding up in boom times and slowing down in recessions—but over-all advancing steadily. This is particularly true of corporate and personal debt, and as long as it moves along in step with income, most people won't get too excited.

The total of public and private net debt stood at a record \$883 billion at the start of the year, a gain of \$37 billion in 12 months. The various forms of government owed \$301 billion, corporations were in hock by \$295 billion and individuals and unincorporated enterprises by \$287 billion. All three types of debt had risen in 1960, although much of the year was a recession period.

The gross national product for the year—that is, the dollar total of goods and services produced—

was \$503.2 billion, a gain of \$21.1 billion in the year. This, too, wasn't bad for a period called disappointing in terms of earlier predictions.

But the recession did slow the growth of corporate and individual debt, and the increase in gross national product, also.

Individuals continued to pull in their horns during the early

months of 1961, a fairly rare occurrence since the end of the war.

Installment debt totals fell in January, February and April, and had only a slight rise in March. The total is now about level with last September, although still above a year ago.

The recession also slowed borrowing by corporations. Plans for expansion were pared. This cut down the need for funds for building plants or buying equipment. Also, business drew back from building up stocks and tended to live off those on hand. The need for funds to carry inventories dropped way down.

Those two factors left many corporations in position to finance the ordinary operation of their business largely out of cash on hand.

But in all three sectors—government, corporate and individual—the signs today are for an increased borrowing pace.

Goldfine Is Sentenced. Handed \$110,000 Fine

BOSTON (AP)—Industrialist Bernard Goldfine was ordered to prison for a year and a day and fined \$110,000 yesterday on charges of income tax evasion.

U.S. Dist. Court Judge George C. Sweeney also placed him on probation for five years.

The judge put Miss Mildred Paperman, Goldfine's secretary, on probation for three years on a similar charge.

Liberic's position as an African nation is unique in that it is the only country in Africa's 12 million square miles that has never been dominated by a European colonial power.

WHOSE LITTLE GIRL?—Mrs. Patrice Frantz, 23, a cocktail waitress, holds her 18-month-old daughter in court in Santa Monica, Calif., where she is attempting to have TV actor Gardner McKay (shown) adjudged the father. McKay denies he could have been the father. So does her husband, Robert, 30, jobless publicity man.

Court Upholds Anti-Red Curbs

U.S. Communist Party Ruled Arm of Russia

WASHINGTON (AP)—The Supreme Court today upheld the government's long effort to compel the Communist party to register as an arm of the Soviet Union.

Such registration was ordered under the Subversive Activities Control Act of 1950, but the case has been tied up for almost 10 years in the courts. The high tribunal heard arguments on two separate occasions, totaling six hours of legal debate, before reaching today's decision.

Justice Frankfurter delivered today's 5-4 ruling.

Under the registration law the party can be compelled to divulge its membership lists and finances and label its literature as Communist propaganda.

Justice Frankfurter's majority opinion ran 112 printed pages.

He concluded with this sentence: "The Constitution does not prohibit the requirement that the Communist party register with the attorney general as a Communist-action organization."

Chief Justice Warren and Justices Douglas and Black wrote dissenting opinions. Justice Brennan wrote a separate opinion dissenting in part.

Warren's dissent, covering 22 printed pages, gave reasons why he felt the law constitutes a violation of the Constitution's 5th amendment ban against self-incrimination.

Black said in his dissent that he would "leave the Communists free to advocate their beliefs in proletarian dictatorship publicly and openly among the people of this country with full confidence that the people will remain loyal to any democratic government truly dedicated to freedom and justice—the kind of government which some of us still think of as being 'the last best hope of earth.'"

Douglas' dissenting opinion asserted that "our Constitution protects all minorities, no matter how despised they are."

Still on the Job

NORTH COLLINS, N. Y. (AP)—Everett A. Potter is still on the job every day as assessor, a post he has held for 52 years. But now he works afternoons only. He's 94.

The \$740 million paid to depositors in interest-dividends by New York State Savings banks last year is equivalent to about \$45 for every man, woman and child in the state.

STORM POUNDS BRANCH INTO KITCHEN—Susan Snyder, 14, looks at a tree branch driven into the kitchen of her home by a severe storm that lashed Sharon, Pa. She is the daughter of Dr. and Mrs. Wilson Snyder.

American Life Said Hard On Institution of Marriage

HOLLYWOOD (AP)—"America is the most difficult place in the world for marriage. And Hollywood is the most difficult place in America for marriage."

This is sad but true, said Anne Baxter, who had a broken Hollywood marriage to the late John Hodiak and now lives happily in Australia with her new husband, businessman-rancher Randolph Galt.

Anne came back on a visit with some pointed views on the American female.

"She is the best looking, best groomed, best dressed woman in the world," Anne remarked, but "She is spoiled."

"She has the most conveniences, the greatest freedom of any woman in the world, but she doesn't know what to do with herself. She makes herself miserable and hence makes her whole family miserable, for she sets the tone of the household."

"You hear her complain that she was educated merely to be a household drudge. That's mostly self-pity. Most American women waste time. If they were qualified and really wanted to, they could find time for part-time jobs or civic work after their children are in school."

"And what is wrong with managing a house? The American woman has the chance to make her house the most attractive place in the world. She has the materials with which to be a truly creative cook. But too many of them don't even try."

'Knowing' Clause In Red Act Upheld

WASHINGTON (AP)—The Supreme Court today upheld validity of the "knowing membership" clause of the Smith anti-Communist law of 1940.

The clause makes it a crime to be a member of a group knowing that it advocates violent overthrow of the government.

Justice Harlan delivered the court's ruling.

The court made the decision in upholding conviction of Junius Irving Connelley, seion of a prominent North Carolina family and onetime chairman of a Communist party district embracing the Carolinas.

DiSalle Signs Anti-Gambling Bill into Law

COLUMBUS, Ohio (AP)—Gov. Michael V. DiSalle has signed a new law aimed at the \$100 million annual numbers racket in Ohio.

The new law carries stiffer fines and prison sentences for policy operators and their aides.

Effective in 90 days, the law sets a maximum fine of \$1,000 and 10 years in prison for promoters or backers of numbers games. Currently the maximum is a \$500 fine and 10 months for first offenders and \$1,000 and seven years for subsequent offenses.

The law also ends the distinction between first and second offenders for sale of numbers slips and extends criminal responsibility to printers and manufacturers of numbers tickets.

Mere possession of a number slip carries a maximum fine of \$500 and six months for the first offense and a \$1,000 fine and three years for others.

The governor applied his fifth veto of the legislative session today to an act seeking authority for elected county officials to exempt more future employees from civil service classification.

"The effect of this amendment," DiSalle explained, "is to permit elected county officials to determine whether their employees are to be employed on the basis of political preference alone. . . . the return to the 'spoils system,' even in part, would be retrogressive."

Miami University Plans New System

OXFORD, Ohio (AP)—Miami University President John D. Millett Monday announced a realignment of the school's education department into four new departments plus a separate student teaching service.

The plan, approved last week-end by the university trustees, calls for creation of a Department of Educational Foundations with a new appointee, Dr. Harry Armogida, as acting chairman; Department of Instruction with Assistant Dean Herbert I. Von Haden as chairman; Department of Counseling and Special Education with Dr. Gene Santavica as chairman, and Department of Educational Administration with Dr. Ralph Parry as chairman.

Insect-eating plants can suffer from glutony. If overfed, they die prematurely.

The World Today

WASHINGTON (AP)—As President Kennedy's White House term lengthened, this question repeatedly was being asked around Washington: When is he going to make his first nationwide TV talk?

He already had used three of the four main ways open to a president for getting his ideas across to the people: televised Congress and television speeches at special events.

It was assumed that Kennedy, acutely aware of a president's need for broad public support, would make a TV broadcast sooner or later.

It also was assumed that, because Kennedy is an extremely shrewd political tactician, he would make the broadcast when he was in the best position for it.

He's in a very good position for it tonight, perhaps better than at any time since he became president.

He'll be fresh back from his meetings with President Charles de Gaulle, Premier Khrushchev and Prime Minister Harold Macmillan. The country is still interested enough to want to know what good, if any, came from the conferences.

So, while attempting to answer this, Kennedy also can get his own foreign policy ideas across on the big issues.

He can do this now without being on the defensive—as he would have been, for instance, if he took to TV to explain his advance approval of the disastrous Cuban invasion—or without irritating any particular part of the American society.

Former President Dwight D. Eisenhower, in his first term, took to TV earlier than Kennedy. He made a nationwide TV-radio broadcast on May 19, 1953, to explain why people couldn't expect an income tax cut right away.

This must have carried some element of disappointment for a lot of people at the time. So Eisenhower's talk, in a sense, was an effort to persuade the public to grin and bear it.

There can hardly be much disappointment in Kennedy's talk tonight—about his conferences abroad, particularly with De Gaulle and Khrushchev—since no one expected any big solutions or little ones, either.

Kennedy isn't expected to say anything new tonight on foreign policy. Since taking office his policy—standing stiff against the Russians—has been essentially the same as that of Presidents Eisenhower and Truman.

So, in talking to a nation which knows the broad outline of American policy and supports it, Kennedy will be asking for continued

Boy Spills Salad; Girl Shoots Him

SPOKANE, Wash. (AP)—A teen-age girl told police she became angry at her date when he spilled potato salad on her lap. She pointed a pistol at him but did not mean to pull the trigger, she said. The boy was mortally wounded Sunday night.

John Moffit, 14, collapsed and died after walking to the front door of the girl's house, officers said. Police said he was struck by a single bullet from a pistol held by Linda K. Titus, 13.

Police Inspector Robert Piper reconstructed the tragedy this way:

They watched television for a time and then got something to eat.

After salad was spilled on the girl, she asked young Moffit to leave but he insisted on waiting for her parents as they had been instructed.

The girl went to her father's bedroom and got a pistol. She pointed the pistol at her companion and the weapon discharged.

The girl was held by juvenile authorities.

Plea for Patience

BUFFALO, N. Y. (AP)—Sign on a suburban service station: "Ring the bell for night service, and keep your shirt on while I get my trousers on."

In the pidgin English of the Australian aborigines, the second verse of the 23rd Psalm is translated this way: "Big Name makum camp alonga grass, takum Blackfella walkabout long a, no frightn no more hurry watta."

HOW TO HOLD FALSE TEETH More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, goopy, pasty taste or feeling. Does not sour checks (plate odor) (denture breath). Get FASTEETH today at drug counters everywhere.

MISS CAROL C. TEEGARDIN

Miss Carol C. Teegardin To Marry James H. Butler

Mr. and Mrs. Paul W. Teegardin, Oakwood Stock Farm, Ashville, announce the engagement of their daughter, Carol Catherine, to Mr. James Hansel Butler, son of Mr. and Mrs. Hansel H. Butler, Waverly.

Miss Teegardin is a senior in the College of Education at Ohio State University and a member of Delta Gamma Sorority.

Mr. Butler is a graduate of Denison University where he was a member of Lambda Chi Alpha Fraternity. He is presently a junior in the College of Dentistry at Ohio State University and a member of Psi Omega Dental Fraternity.

A July wedding is planned.

Florence Jones Is Engaged

FLORENCE JONES

Mr. and Mrs. Robert Jones Sr., 328 E. Ohio St., announce the engagement and approaching marriage of their daughter, Florence Juanita, to Mr. Thomas L. Fisher, son of Mr. Rollie Fisher, Lancaster and the late Mrs. Pauline Fisher.

Miss Jones is a 1960 graduate of Circleville High school and is employed at the State Office Building, Columbus.

Mr. Fisher is a graduate of Lancaster High School and is currently studying for a career in the entertaining field.

The wedding will be an event of June 25 in the Circleville Second Baptist Church.

Miss McFarland Feted at Bridal Shower

Miss Barbara McFarland, bride elect of Jay Curry was honored recently at a miscellaneous bridal shower given by Mrs. Richard Anderson and Mr. David Adams in the home of Mr. Anderson, E. Franklin St.

Gifts were placed on a table decorated around a bridal doll with a shower of lavender and white streamers.

Games were played and prizes were won by Mrs. William Curry and Mrs. Wesley Barton.

Gifts were opened by Miss McFarland and a dessert course was served to the following guests: Mrs. Marshall McFarland, Miss Thelma McFarland, Mrs. William Curry, Mrs. William Brungs, Mrs. William Goff, Mrs. Turney Ross, Mrs. Robert Temple, Mrs. Wesley Barton, Miss Fern Manson, Mrs. Daryl Thompson, Mrs. Nolan Dunkle, and Mrs. Michael Hosler.

Gifts were sent by Mrs. Leroy Hawks, Mrs. Jack Mills, Mrs. Dixie Watters and Mrs. Robert Ely.

Pickaway County Council Conducts Third Flower Show

The Pickaway County Council of Garden Clubs held its third annual all day meeting and flower show Thursday at the Monroe Two, High School auditorium, Five Points.

Miss Florence Brown, Ashville, council president, brought the morning session to order with a garden prayer and announcements of deadlines for various reports that should be relayed to her in order to forward them to the committee chairman of the OAGC.

Miss Brown introduced Mrs. Franklin E. Smith, Groveport, regional director for district 9, OAGC who gave details of the various projects sponsored by the Ohio Association and urged all clubs to send their contributions in as soon as possible.

Mrs. Smith then introduced the speaker for the morning session, Mr. James Caldwell, OSU Horticulture Department, who gave a talk on the care of lawns and annuals.

He stated there are four points in having a beautiful lawn. He named them as good seed, frequent mowing, application of fertilizer at least once a year and weed control.

Mr. Caldwell recommended mower adjustment at a height of two inches for a helathy velvety turf. He said if this height is maintained the problem of weeds will be practically solved and he reminded the audience to keep lawn mowers sharp. A dull mower is detrimental to the grass and is often the cause of the brown appearance seen on some lawns.

The Monrovia Garden Club served a noon luncheon from tables centered with seasonal flowers and favors for each guest at the place settings. The flower show was judged by Mrs. Russell Blazer, Columbus. Here are the results: Best bearded Iris — 1st, Mrs. Guy Gulick; 2nd, Mrs. Clude Michel; 3rd, Mrs. James Hott; Best Oriental Poppy — 1st, Mrs. Donald Watt; 2nd, Mrs. F. J. Ruble; 3rd, Mrs. Dorsey Bumgarner; Best Double Peony — 1st, Mrs. James Hott; 2nd, Miss Florence Brown; 3rd, Mrs. Eugene Borrer; Best Hardy Lily — 1st, Mrs. Donald Watt; Best Hemerallis — 1st, Mrs. Clark McCafferty; 2nd, Mrs. Harry Smith; 3rd, Mrs. Donald Watt.

Section I — Artistic arrangements for beginners class, Class I — 1st, Mrs. Clark McCafferty.

Section II, Return to Spring — 1st, Mrs. Mary Allay; 2nd, Mrs. Guy Gulick.

Section III, Advanced Arrangements, Class I — The World is all in Tune, 1st, Mrs. James Hott; 2nd, Mrs. Donald Watt.

Class II, Over the Rainbow —

1st, Mrs. Donald Watt; 2nd, Mrs. James Hott, 3rd, Mrs. Thyra Schleich; honorable mention, Mrs. Floyd Ruble.

The afternoon session was called to order by Miss Brown and reports from each president of all the clubs were heard. Clubs represented were Circleville, Commercial Point, Ashville, Deer Creek, Derby, Monrovia and Soliqua Garden Clubs. Some of the outstanding achievements reported were a plant sale by the Monrovia Garden Club and a sale of dried material and bird feeders by the Circleville Garden Club.

Miss Brown presented Mrs. Donald Watt with a gavel in appreciation for her untiring efforts on behalf of the council. Mrs. Watt organized the Pickaway County Council.

The highlight of the afternoon was a flower arrangement demonstration by Mrs. Russell Blazer. She proved that one does not need expensive containers and equipment to make beautiful flower arrangements.

Mrs. Blazer created stunning compositions using containers made from detergent cans which are found in every home and cost nothing. She demonstrated how to make a bud out of a full bloom rose by carefully removing the petals until you have a bloom the size you want.

She revealed many secrets to help the flower arranger attain that illusive objective called perfection.

The distribution of door prizes concluded the days events.

Circleville Garden Club members attending the all day affair were Mrs. C. C. McClure, Mrs. E. E. Wolf, Mrs. Hal Dickenson, Mrs. Harry C. Kern and Mrs. Donald H. Watt.

Dear Abby...

By Abigail VanBuren

Another 'Do-Gooder'!

DEAR ABBY: Please answer this before Sunday. What would happen if, during a wedding ceremony when the preacher asks, "If there is anyone present who knows of any reason why these two should not be joined in holy matrimony, speak now or forever hold your peace," somebody stood up and stated an objection?

You see, Abby, this girl is 17 and pregnant. The man is a widower, about 30. He has two children, 3 and 5. He doesn't know who this girl got mixed up with, and says he doesn't care. All he is looking for is a mother for his children. And all the girl is looking for is a man who will save her from disgrace. Shouldn't some decent citizen object to this marriage?

NEEDS AN ANSWER
DEAR NEEDS: In my book, there is one ingredient that is essential to the success of every marriage—two people who truly need each other. This couple qualifies.

DEAR ABBY: I am a woman who has been a "practical nurse" for thirty years. I have been engaged to stay in homes with as many as six children while their parents have gone on vacations for a month at a time. Yesterday I was called by a wealthy woman who asked me if I would accept a job in her home for three weeks while she and her husband took a trip. She said she had no children, but would pay me my regular fee to stay there and take care of her DOG. Would you have accepted the position?

INSULTED
DEAR INSULTED: You're dog-goned right I would have!

DEAR ABBY: I have been going "steadily" with a very nice boy, but he has one very bad fault. When he walks, his back looks like a wet noodle, and his nose is poked down toward the ground. When we are waiting for a bus, he leans on anything that is handy. I would like to tell him to improve his posture, but I don't want to hurt his feelings. He is 15. Can you give me some advice?

SLUMPY'S GIRL
DEAR GIRL: If you like this boy, tell him in a friendly way that he would be much better looking if he straightened up and stood and walked erectly. If he likes you, he will realize that you are telling him for his own good, and he won't be hurt.

DEAR ABBY: About two years ago an unusual item appeared in your column. I thought it was wonderful and clipped it out. It was your recipe for happiness. Would you please print it again for others who might have missed it? It has helped me so very much. Thank you.

MAXINE D.
Take 2 heaping cups of patience
1 heartfelt of love
2 handfuls of generosity
Dash of laughter
1 headful of understanding
Sprinkle generously with kindness
Add plenty of faith and mix well
Spread over a period of a lifetime
And serve everybody you meet.

Are things rough? Let Abby help you solve your problem. For a personal reply, write to Abby, Box 3365, Beverly Hills, Calif. Enclose a stamped, self-addressed envelope.

Tarlton WSCS To Meet
Tarlton Methodist WSCS will meet at 2 p. m. tomorrow in the social rooms of the church.

Roxie Tootle Honored on 8th Birthday

Roxie Tootle was guest of honor at a party given by her parents, Mr. and Mrs. Milton Tootle, Williamsport, to celebrate her 8th birthday.

Games were played and prizes were awarded to Connie Hooks, Cindy Wolfe, Mark Clark, Teddy Rogers and Steve Rigby.

Others present were Connie McOmber, Judy Steele, Diana Morrison, Marilyn McAllister, Donna Rae Bryant, Ettia Jo Sollars, Jackie Pitt, Greg Heiskell, Ronnie Greenwood, Terry Rogers and Jimmy Steele.

Personals

Mr. and Mrs. E. J. Stacker and Ron will attend the high school commencement exercises tomorrow of their grandson and nephew, Buzz Frye, at Taft Auditorium, Cincinnati. Friday morning at Ohio State University Commencement exercises Ron will receive his BS degree in Personnel, and his commission as a 2nd Lt. in the U. S. Army Reserve.

Ringgold EUB

To Meet Thursday
Ringgold EUB Ladies Aid will meet at 2 p. m. Thursday in the home of Mrs. Robert Frazier, Route 3.

Vote, Education Rights Are Linked

WASHINGTON (AP)—The Justice Department today contended that the right of all American children to have an education is directly related to their subsequent rights as adults to vote.

In an unusual court brief, the department asserted that if the necessary schooling is withheld in the formative years, the child may later be unable to meet vot-

ing tests laid down by the states. On those grounds, the department told a three-judge U.S. District Court at Baton Rouge, La., that a shut-down of public education in St. Helena Parish would be unconstitutional.

The department said the states have a constitutional duty to operate public schools and cannot abandon the system to avoid racial integration.

The brief said Louisiana, in common with 18 other states, maintains a literacy test for voting, and that such tests have been held valid by the Supreme Court.

"Accordingly, we believe that the imposition of such a requirement as a condition to the exercise of the most basic of all rights of a citizen may well impose a corresponding duty upon the State of Louisiana to furnish its citizens with the means by which the condition can be met," the brief said.

The St. Helena case originated in 1952 on petitions by Negro parents seeking to have their children admitted to the public schools of that parish in Louisiana. The District Court early last year ordered the admissions and this was affirmed by the Circuit Court of Appeals at New Orleans. A few days later, the Louisiana Legislature passed a law authorizing local school boards to close their schools if majority of the local electorate approved that course.

The three-judge court is now sitting to determine the validity of that state law. It asked the Justice Department and the attorneys general of all the 50 states as well as the Negro plaintiffs and the St. Helena School Board to submit their views.

The case involves a suit by the National Association for the Advancement of Colored People attacking the constitutionality of a Louisiana law permitting local option voting on whether schools should be integrated or closed.

The NAACP suit was filed on behalf of Negroes in St. Helena Parish, which voted overwhelmingly to close its schools rather than comply with a federal court order to desegregate.

Atty. Gen. Jack Gremlion of Louisiana has said that if the three-judge federal court in New Orleans rules local option school closing violates the constitution, "then I would say that the legislature has very little recourse, if any, and the federal courts have taken over operation of the schools."

School Supt. J.L. Meadows of St. Helena Parish predicts forced integration would mean a complete boycott like at McDonough No. 19 in New Orleans, and will result in destruction of public education for the white people.

The three-judge court asked for friend-of-the-court briefs in the case from legal officers of all 50 states and the Justice Department in response to two questions:

1. Would the abandonment of a state's public school system deprive children of rights guaranteed by the 14th Amendment's due-process or equal-protection clauses?

2. Would the answer be the same if abandonment were on a local option basis following a vote of the electorate authorizing county school authorities to close public schools?

Chillicothe Bids Merged

CINCINNATI (AP) — The National Labor Relations Board has consolidated the bids of two unions to represent employees of the Mead Corp., Chillicothe papermaker, and set a hearing for June 15 in the Ross County Courthouse.

'Fix' Humbles GE Chieftain

U.S. System Depends On 'Self-Discipline'

WASHINGTON (AP)—Ralph J. Cordiner, president and board chairman of the General Electric Co., today described the price-fixing conspiracies in which his firm was involved as "a humbling experience."

He and others learned a lesson from it, Cordiner told the Senate Antitrust and Monopoly subcommittee.

In retrospect, he said it was apparent that his giant electric manufacturing company's efforts to insure compliance with the antitrust laws were not enough.

What he and all other GE executives and employees have learned, Cordiner said, is this:

"This great country's competitive enterprise system will remain free and competitive only so long as the citizens, and particularly those of us with responsibilities in business life, are capable of the self-discipline required and are willing to exercise it."

"If we are not," he said, "the power of government will increasingly be invoked as a substitute, to compensate for our failures. Then our competitive enterprise system will be neither free nor competitive."

"Thus, self-discipline is the key to a free, vigorous, and competitive economy."

Cordiner, who had asked that he be permitted to testify, gave his views as the subcommittee neared the end of a five-week inquiry into antitrust cases brought by the government against GE and other major electrical manufacturers.

In his prepared testimony, he said that as GE's chief executive officer "I accept my share of responsibility for what happened, even though I did not know of these secret violations of the law or condone such acts."

"There is no excuse, in morality and ethics, in law, or in the exercise of sound business judgment, for these violations," he said.

"I believe the antitrust laws are necessary laws," Cordiner said, "and I believe that the public interest demands that they be enforced aggressively."

Cordiner said the illegal price-fixing meetings attended by lower echelon GE executives were violations of a clear, written company policy that he had done his best to instill at all levels.

Thumb Is Too Green

TOPEKA, Kan. (AP) — Don Becker wonders if he should continue using willow branches to stake up his tomato plants.

He pushed the branches in the ground for the plants to climb. Then the branches sprouted and now it looks like he is in for a new crop of willow trees.

EVERYONE* WITH A 1961 OHIO AUTO LICENSE PLATE IS AUTOMATICALLY IN THE

\$250,000

JACKPOT

*Nothing to buy!
Not a contest!
No registration!*

A NEW WINNERS LIST POSTED EVERY SUNDAY!

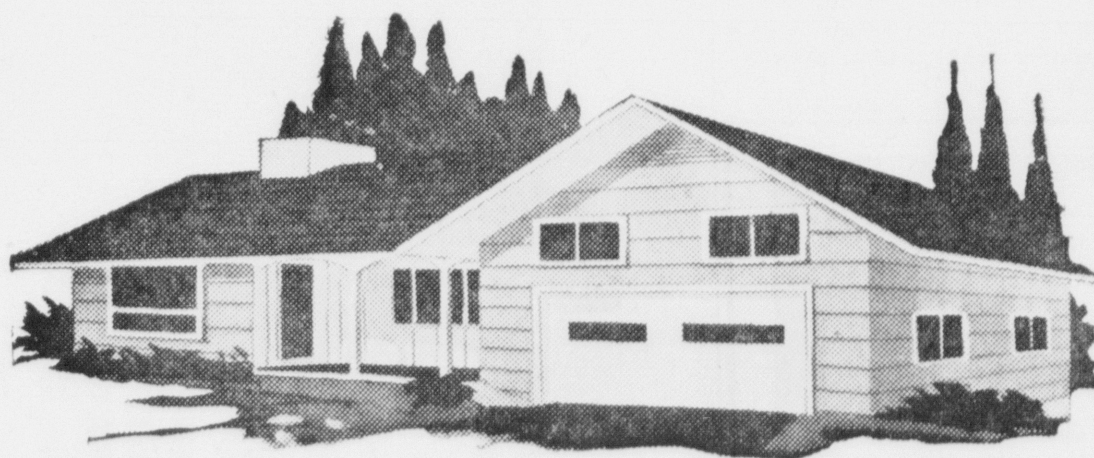

Every* 1961 Ohio auto license plate number has been automatically entered. Each week a new list of winning license numbers will be posted at all Sohio Stations. Winning numbers are selected by an independent statistical organization, insuring fair distribution throughout Ohio. Free gifts must be claimed each week.

***GRATIS PLATES NOT INCLUDED**

If any winning automobile license number is registered in the name of a company, rather than an individual, Sohio reserves the right to determine which driver of such automobile shall receive the gift.

CHECK FOR YOUR AUTO LICENSE NUMBER EACH WEEK AT SOHIO!

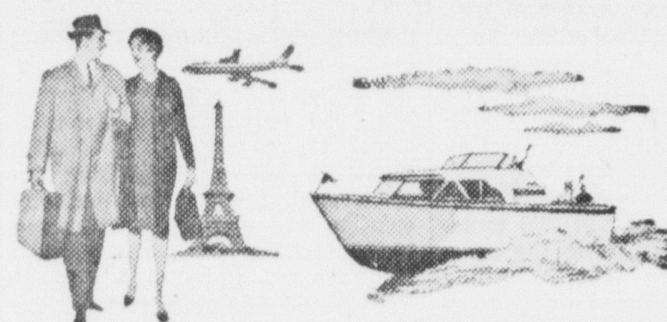

YOU MAY WIN A **\$20,000 Dream House**
OR \$20,000 IN CASH

\$20,000 toward the purchase of any home. The winner will select the style, type and builder of the home to be built on his own lot. Winner posted week of July 16th.

EACH WEEK!

One of these
Glamour Gifts
is given away!

AN AIR TRIP AROUND THE WORLD FOR TWO!

A three-week jaunt around the world. You'll visit Great Britain, France, Italy, Lebanon, India, Hong Kong, Japan and Hawaii.

LUXURY-FITTED CRUISER!

25-foot, inboard cruiser with V-8 185 HP engine, folding top, bilge pump, portable searchlight and other accessories.

A COLLEGE SCHOLARSHIP!

\$4,000 toward the cost of a college education. Winner can choose any college or university.

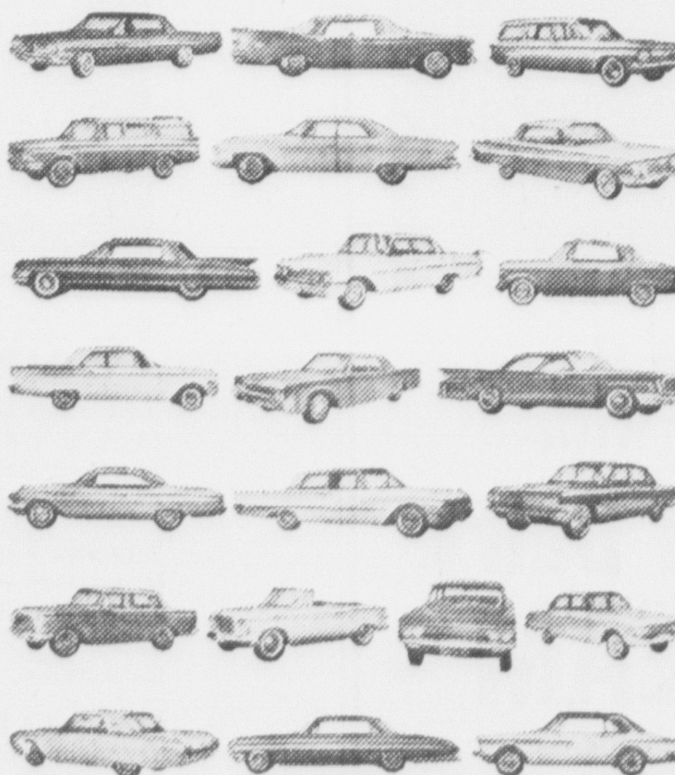

A 3-PC. MINK WARDROBE!

Consists of a luxurious, full-length natural mink coat, a high-style cape stole, and a classically-styled cape.

EACH WEEK!

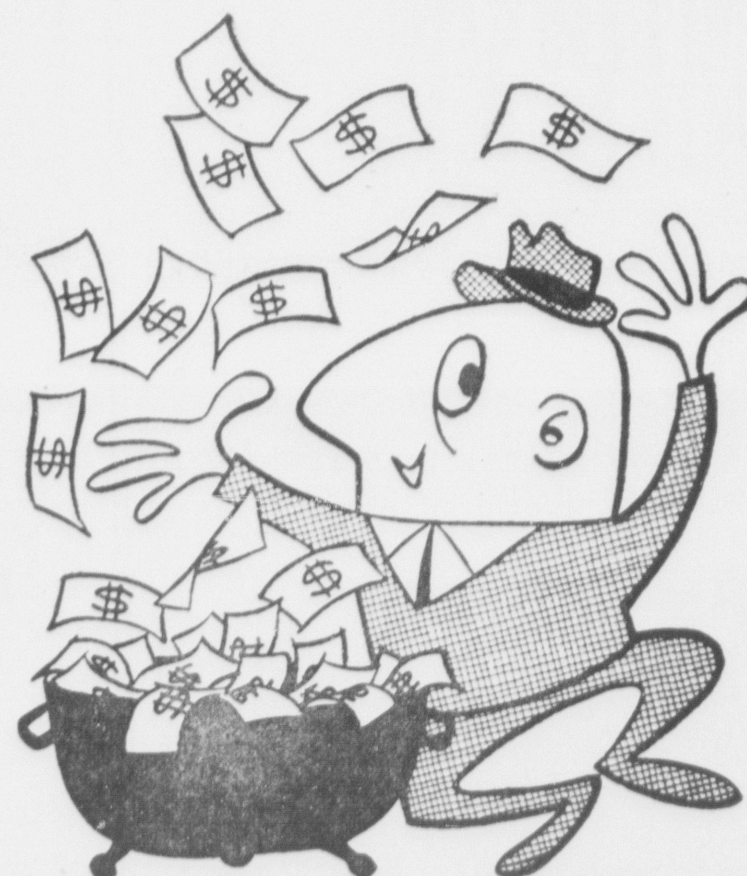

A new 1961 car is given away!

Each week's winner selects from three different makes offered that week.

PLUS

Thousands and thousands of other free gifts ranging in value up to \$1,000!

More than 19,000 free gifts!

'I'LL TAKE IT WITH ME'—Bill Evans wonders what the catch is. There isn't any. Seeking quick disposal, a corporation in Seattle, Wash., that owns the property, offered to sell the house, complete with fixtures, for 88 cents if the buyer agrees to remove the building within six weeks. A large apartment house is to be constructed on the site.

Mrs. Mary Nay
Is Christian
Science Head

MARY LEE NAY

Greater spiritual alertness is needed to meet the unprecedented challenges and opportunities presented by the tremendous upheaval in the world today. The Christian Science Board of Directors said.

In a special message to the Annual Meeting of The Mother Church, The First Church of Christ, Scientist, held yesterday in Boston, Mass., the directors called for renewed vigilance on the part of all who cherish freedom, brotherhood and Truth.

"Among the stirring headlines of our day," they said, "there is no more vital news than the Christianity which our Master taught and practiced. In an age of political tyranny and ecclesiastical despotism, of turbulence, unrest, and hatred, Christ Jesus came preaching that the kingdom of God is at hand. He wielded a power which the might of materialism could neither parallel nor resist."

"In our own age, material limitations are yielding to the freedom-giving power of God, infinite Spirit," the directors maintained.

"Humanity is crying out," they said, "for freedom. Peoples are clamoring for liberty; nations are being born; the barriers of time and space are crumbling. . . . In the fields of religion, government, education, discovery, invention, industry, and medicine, matter is slowly yielding to Spirit."

Named president of The Mother Church was Mrs. Mary Lee Gough Nay, a Christian Science teacher and practitioner of Boston Mass. She succeeds Arthur W. Eckman, General Counsel of The Mother Church.

A native of Texas, Mrs. Nay received her education at Ward Seminary, Nashville, Tenn., the University of Texas, and the University of Chicago. She withdrew from a musical career in 1918 to devote her entire time to the practice of Christian Science healing in Chicago. She became an authorized teacher of Christian Science in 1946. She will serve as president for one year.

In her keynote address, Mrs. Nay said that release from the frustrations and inequalities of materiality can come to all through spiritual awakening.

"Basically, mankind needs awakening from the nightmare of belief in living matter and intelligent evil, from its confidence that matter can give satisfaction, that it holds the solution for all the diseases, iniquities, and inequalities

Assembly Set...

(Continued from Page 1)

The veto will be overridden in the House, a co-sponsor, Rep. Harry V. Jump, R-Huron, predicted. Jump was uncertain about the Senate.

In striking down the bill, DiSalle said it seeks to remove many presently protected positions from classified civil service. He added: "The return to the 'spoils system,' even in part, would be retrogressive."

DiSalle's sixth veto applied to a bill which would make members or employees of county agricultural societies eligible for other public offices. The governor said this conceivably could result in a situation such as a fair manager requesting an increase in funds for the fair, then—as a county commissioner—voting for the increase.

The seventh veto hits a bill allowing special hunting of migratory waterfowl on Sunday. DiSalle said it "would be unfair to limit the privilege only to those who qualify through membership in hunt, trap shooting, rifle or game clubs."

The House agreed Monday to exempt fairs run by the state, counties or independent agricultural societies from a ban against simultaneous horse racing at more than one track in a county or tracks within 50 miles of each other.

The senate already had approved the bill, which has an emergency clause making it effective immediately — if the governor signs it. Normally, bills become law 90 days after the governor signs them.

Rep. Fred K. Cassel, R-Wyandot, said the Ohio Racing Commission refused harness racing of the human family," she declared.

Emphasizing that there is an answer to hatred, disease, poverty, and disaster, Eckman, the retiring President, said, "it is God's law of love, which must be invoked in humility and with abiding faith and clear understanding."

Healings through prayer of alcoholism, arthritis, poor eyesight, goiter, cancer, and other serious conditions were reported during the year by those who became interested in Christian Science through radio and television programs in the series "How Christian Science Heals," Will B. Davis, Manager of Committees on Publication, told the large gathering.

The new delivery system established by the printing of The Christian Science Monitor in London and Los Angeles, as well as in Boston, has been well received, John H. Hoagland, manager of The Christian Science Publishing Society, said. He reported that circulation has increased by some 75,000 families since the Monitor has been made available in Great Britain and in many parts of the United States on approximately the date of publication.

New translations of some of the writings of Mary Baker Eddy, discoverer and founder of Christian Science, into several languages were announced.

In Ghana, West Africa, Uruguay and many other areas outside the United States, new branches of The Mother Church were established during the year. New Christian Science college organizations in South Africa and South America were also reported.

5 Men Test
Life in Rough

Survival Attempted
High in Mountains

KINGWOOD, W. Va. (AP) — Five men and a dog are playing a deadly serious game—camping high in the Allegheny Mountains, with virtually no provisions, existing on what nature has provided.

They are pretending an atomic bomb hit Pittsburgh, and they were among the survivors.

The five had been out a week Monday. They have lost a little weight, but nothing serious.

They have eaten plenty of greens, mostly clintonia (corn lily) and plume lilies. They caught two rock bass and a creek chub in Big Sandy Creek, 200 yards down the shallow hill, and shot three rabbits.

Whenever they kill an animal, they check it immediately for radiation. Then they skin it and dress it and check it again.

The test lasts through another week. Then the five men come into this Preston County seat for a big buckwheat feed.

All five are from Weirton, a steel town near Pittsburgh. All except one work at Weirton Steel. They are Bob Vinburg, 22; Ralph Marracino, 21; Garner Kelley, 27, and Andrew J. Kondik, 46. Only Marracino is unmarried.

The fifth, Carl Swift, 24-year-old outdoor writer for the Weirton Daily Times, originated the idea. He worked out the details with Civil Defense officials, who quickly agreed to the experiment.

A physicist at West Virginia University plotted the amount of radiation and fallout they would expect, pending on the weather.

Swift picked this sparsely settled—but breathtakingly beautiful—area just a few stone throws south of the Pennsylvania-West Virginia border and not far from the Maryland line because one of the Civil Defense evacuation routes from the Pittsburgh area would be nearby. U. S. 40.

Administration Sees Threat
Of Inflation Return to U.S.

WASHINGTON (AP) — Top White House advisers say there is rising concern in the Kennedy administration over the threat that business recovery will revive inflation.

There is no thought of resorting to direct price or wage controls barring "a wartime situation," said Chairman Walter W. Heller of the President's Council of Economic Advisers.

But Heller added: "We will have to exercise self-restraint to a degree perhaps never known before."

Three administration leaders—Heller, Secretary of the Treasury Douglas Dillon, and Walt Whitman Rostow, special assistant to the President—stressed the renewed threat of advancing prices in addresses to the Advertising Council Monday.

The council's an organization of national advertisers and advertising agencies which donate millions of dollars worth of free advertising each year to campaigns in the public interest.

Heller told the advertisers the vigor of the business upturn should lift national output to a record \$530 billion yearly rate by the end of 1961—a 5 per cent gain from the first quarter—and should generate enough tax revenues to give government a budget surplus in fiscal 1963.

But he and other officials stressed that a resumption of living cost increases may be a by-product of prosperity unless unions settle for moderate wage advances.

NEW YORK (AP) — Former President Harry S. Truman said today progress toward integration has not been fast enough, but contended its problems can be solved through common sense and not "hammer and tongs."

Truman, on his morning walk, was accompanied by about a dozen persons. One of them was James Peck, a "Freedom Rider," who was attacked in Birmingham, Ala. last month.

Peck, an official of the Congress of Racial Equality (CORE) told the former president he was disappointed by his remark last week that the riders are agitators who should stay home instead of "stirring up trouble" in the South.

"What I said the other day, I meant," Truman replied. "Segregation is everybody's business but its problems can be settled with common sense."

Later, he added that good will also was needed and not "hammer and tongs."

He expressed the view that "there has been good progress toward integration, but not fast enough. It must come about for it is necessary and right."

How Weather
Looks Today

COLUMBUS, Ohio (AP) — Official Weather Bureau summary of Ohio's weather outlook:

It was fair over northern Ohio this morning, but cloudiness was general over the south. No rain was reported early today, although scattered thundershowers occurred Monday night and rainfall measured over two inches at some points in the extreme southern counties.

Early morning temperatures ranged from 58 in Toledo to 68 in Cincinnati. Columbus had 64.

Warm weather was expected today, as southerly winds continue to bring humid air northward. Scattered thundershower activity is expected to this afternoon, tonight and Wednesday.

Little change in temperature is expected through Wednesday, with daytime readings mostly in the low 80s and night-time readings in the 60s.

Wilmingtonian Named
To State Ag Board

COLUMBUS, Ohio (AP) — Gov. Michael V. DiSalle has appointed Emmett H. Bailey of Wilmington to the State Board of Agriculture. Bailey will complete the unexpired term, until 1966, of H. E. Frederick of Marysville, resigned. DiSalle Monday also reappointed Orran Hofstetter of Orrville to the Ohio Soil Conservation Committee.

Marietta College Plans
Vast Building Program

MARIETTA, Ohio (AP) — Marietta College, faced in the next five or six years with an anticipated increase of 500 students above the 1,300 it has now, has embarked upon a \$6 million building construction program financed through gifts and grants.

Through the same means, the school hopes to raise \$2 million in new endowment funds.

True Scholar Shuns
Communism, Belief

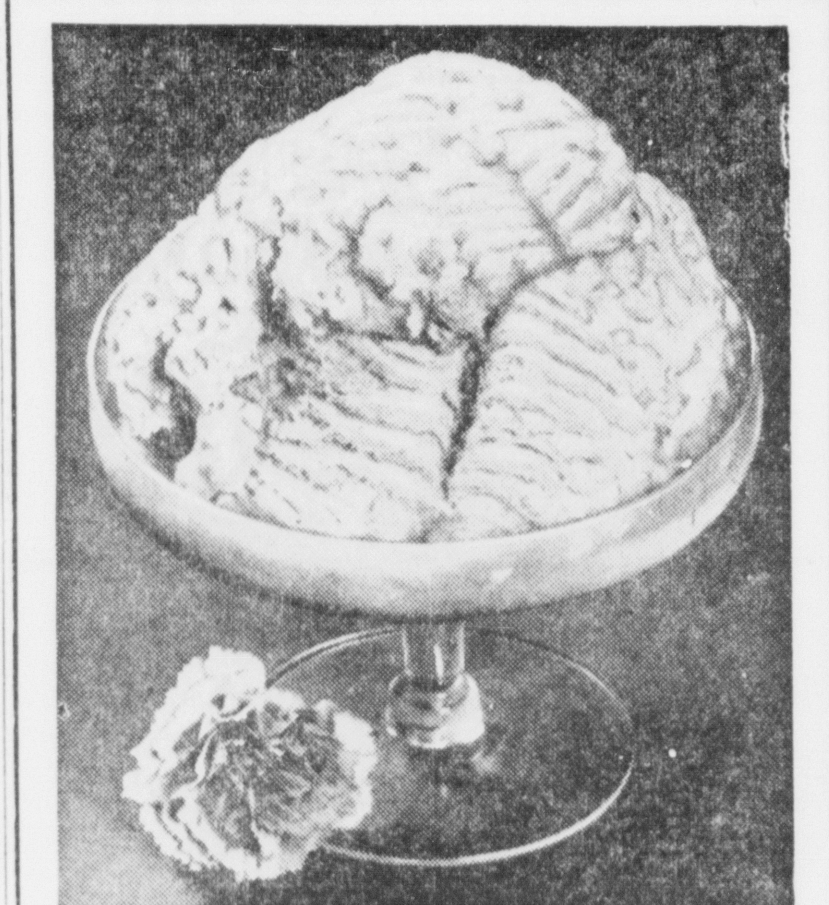

COLUMBUS, Ohio (AP) — Communism is adverse to the intellectual process, Ohio State University President Novice G. Fawcett told 250 graduating seniors of Capital University Monday.

In the commencement address, Fawcett declared that communism can have no legitimate appeal nor hold upon the mind and heart of the real scholar, the true intellectual.

"The untrammelled search for truth," he said, "its publication and its application as we know it is simply unheard of in the communist state."

Football Pool Pair
Faces U.S. Tax Rap

CLEVELAND (AP) — Two Mansfield men are to appear before U.S. Tax Court here to face tax claims involving income from a football pool they allegedly operated. The government is asking \$42,455.34 in taxes and penalties against Michael F. Hallabrin on income from 1953 to 1957. Clarence I. Steffy owes \$12,272.37 in taxes and penalties on his income from 1955 to 1957, the government alleges. The Tax Court opens June 19.

"I install Gas Heating Systems in every new home I build.* Gas heated homes are a lot easier to sell . . . because they're more practical — more economical to heat, and more dependable.

Signed — J. BOYD STOUT

To give home-buyers the most for their money...

You can't beat GAS heat for economy. Dollar for dollar GAS heat is the best buy. Costs only about 1/4 as much as wired heat — and doesn't require excessive insulation.

You can't beat GAS heat for cleanliness. GAS burns clean — no smoke, soot, or dirt. A forced air system circulates the air in your home, filters it, removes dust and pollen, and reheats the cleaned air for constant, even warmth.

You can't beat GAS heat for dependability. Throughout last winter's record cold spells, GAS heat users were comfortably warm. A flick of the thermostat to the desired temperature did the trick—without fear of interrupted service due to winds or ice.

You can't beat GAS heat for healthful living. Heating with some fuels means sealing your home so tightly that you breathe stale air, but a GAS heating system provides for normal air change. This brings in fresh air automatically. GAS HEAT PROVIDES A HEALTHFUL, FRESH-AIR ATMOSPHERE.

You can't beat GAS heat for modernity. With a GAS forced air system a house is half way to year 'round air conditioning. Conversion to summer cooling using existing furnace ducts is simple and quick. Often there's no costly remodeling or construction. Nothing else provides the advantages of GAS . . . at such a low cost.

Call or write us now for this useful, fact-filled booklet which will answer all your home heating questions.

*Where Gas is available

THE OHIO FUEL GAS COMPANY... Beyond Our Gas Mains Use L-P Gas

There's nothing like a flame for heating!

This excellent over-all windup can be had only when starting the backswing with some side movement of the hips, however slight.

SWING ERRORS repeated most often and most damaging to any player's game are the wrong head position, then the wrong body balance and action. Most players making these errors actually invite them.

The truth about the correct body balance and action is that they cannot be had without some lateral movement of the hips, however slight, when starting the backswing and the downswing.

Likewise, the proper hip action cannot be mastered without exaggerating it in the early stages of learning. Yet pupils often argue: "This won't allow me to stay over the ball." Then they will demonstrate the popular version of staying over the ball by turning the body so that most of the weight remains on the left leg in the backswing. To justify this they will add: "Everybody teaches this and says the hip shift is ridiculous."

"Everybody" overlooks the fact that turning the hips first instead of shifting them makes the body work against the arms and hands to greatly lower swing efficiency on the whole.

Chisox Sale Is Held Up By Indecision

CHICAGO (AP)—The indecision to either accept or reject a bid of \$4.8 million for controlling interest in the Chicago White Sox could result in a withdrawal of the offer today.

Sox President Bill Veeck announced Monday that he, Hank Greenberg and A.C. Allyn Jr., had not reached a decision on the offer made by Chicago Atty. Bernard Epton, spokesman for a syndicate which also includes entertainer Danny Thomas.

Epton, obviously perturbed by the delay, scheduled a news conference today and said if the Veeck group didn't reach a decision in the "immediate future" he would recommend to the syndicate that the offer be withdrawn.

Vice President Greenberg, who has been in charge of Sox affairs because of Veeck's ill health, says there can be no sale when there is no money.

"Epton keeps talking about the millions he has behind him," said Greenberg, "but he never came up with enough cash to warrant our giving him an option."

Greenberg was reminded that Veeck only put up \$100 for an option from Mrs. Dorothy Comiskey Riney which enabled him to purchase the 54 per cent stock now held by the group.

Chuck Comiskey owns the other 46 per cent of the club but his stock is not for sale. Comiskey has been fighting to gain control of the club since before his sister sold her stock to Veeck.

Whitey Ford of the Yankees started the 1961 season with a 24-5 career record over the Washington Senators.

High Scores Mark LL Opening Games

The American Legion outfit, unloading a 19-run, 11-hit attack, dropped Bingham's Drugs 19-11 in a wild and wooly Little Major League opener last night at Ted Lewis Park.

Leading the hit parade for the winners was George Speakman with three safe blows in four attempts. Jim Moorehead clubbed out three - for - five to be the only other Legion player in multiple hit totals.

Danny Diehl hit one for two and tallied four runs. Frank Carter had a perfect day — one hit in one at bat — and also counted a quartet of markers.

Tim Huffman, Mike Turner and Steve Carroll all had one safety apiece for the winners.

THE only Legion players held hitless were Tom Goeller, who was collared in three tries, and Ron Miller, hitless in one at-bat but who scored two runs.

No score sheets were available

for the Bingham's squad. In the Little Minor League encounter, Rotary buried the Blue Ribbon Dairy nine, 28-8.

The scrap was held to four innings due to the length of the opening innings. Rotary opened peacefully enough, counting only one marker in the first two frames.

The bottom dropped out of the 1-1 battle in the third stanza, however. Before the hits had stopped falling, Rotary's batters had accounted for an incredible 19 runs on seven hits and a number of walks and fielding errors.

They pushed across eight more in the fourth inning and the rival coaches decided to call it quits for the night.

FARRELL had three hits for the winners, Walters (4), Roy (1), Huffines (2), Helwagen (2) Carrison (1), Davis (1), Downing (1) and Dumm (1).

More Qualifications Slated In U.S. Open Golf Tourney

By THE ASSOCIATED PRESS

The last 85 vacancies in the 150-man field for the U.S. Open golf championship go up for grabs today with Samuel Jackson Snead spotlighted as he reaches for the 21st straight time for the one crown he's never won.

Snead, who claims at 49 he's a "better golfer now than 10 or 20 years ago," will be among 32 professionals and 16 amateurs aiming for 11 berths in the 36-hole sectional qualifier at Detroit's Grosse Isle Golf and Country Club. If he qualifies, he'll be playing in the Open for the 21st consecutive time.

Many of the other regulars on golf's touring circuit will be battling for places in the premier U.S. championship that will be played at the Oakland Hills Country Club course in Birmingham, Mich., June 15-17.

Forty-four berths were filled in seven locations Monday. The 85 others today join 21 exempt players to make up the 150-man lineup for the open championship next week.

Oklahoma City will be the proving grounds for the bulk of golf's regular tourists, including Ken Venturi, Gene Littler, Marty Furgol, Don Whitte, Fred Hawkins, Bill Collins, Bob Goaly and many others.

Defending champion Arnold Palmer and Masters champion Gary Player head the list of 21 who have been made exempt from the two stages of qualifying.

Don January and Bill Bisdorf of Denver were the national leaders Monday among 44 who qualified at Denver, Atlanta, Chicago, Kansas City, Cincinnati, Portland, Ore., and Dallas.

January, setting a course record 65 at the Dallas A.C. Country Club in his afternoon round, led the Dallas field with 70-65-135. Bisdorf matched that total with 65-70 over the 7,035-yard par 72 Columbine Country Club course at Denver.

Robin Roberts Finally Chalks Up First Win

SAN FRANCISCO (AP) — "I had a hunch I was gonna win one," said Robin Roberts, "but I was starting to wonder when."

The 34-year-old right-hander collected his first 1961 victory Monday as the Philadelphia Phils beat San Francisco 3-2, dropping the Giants to third place in the National League.

Roberts had lost seven decisions before his triumph and he savored the victory quietly and thoughtfully. You would have thought it was the seventh game of the World Series.

Robinson Eyes Lead in Homer Race

CINCINNATI (AP)—Frank Robinson's game-winning homer Monday night put the Cincinnati slugger in reach of seizing the lead in the National League home run race, and put the Reds back atop the standings.

Robinson has 14 round-trippers. The leader, Orlando Cepeda, has 15.

Though Robinson's standing is naturally of interest to Manager Fred Hutchinson, the two runs his latest clout scored were more important in that they enabled the Reds to beat Milwaukee, 5-3.

So far this year Robinson has not yet quite caught his hitting stride. His average is .274, compared to .27 at the conclusion of last season. But last year only two out of each nine hits by Robinson were homers; this year the ratio is one out of three—14 home runs in 42 hits.

Quite a few have come when they really counted.

The Braves started the opener of a four-game series here with a walk and two home runs off Joey Jay in the first inning. The two-run homer by Eddie Mathews was the 29-year-old slugger's 12th of the season and 350th of his career. Joe Adcock got the other.

The Reds came back in the second. Robinson, who got three hits in four at-bats, singled to center and Jerry Lynch doubled. Both scored on Gordie Coleman's single.

But the Reds needed another run to catch up. While Jay kept the Braves from adding to the lead, the Reds did not get anywhere either against Lew Burdette until the eighth.

Then Vada Pinson lined a single and Robinson homered over the center field wall. Burdette (4-5) left, but Lynch homered off Federalio Olivo to make it 5-3.

Jim Brosnan, who pitched the eighth and was helped by Bill Henry in the ninth, got the win.

The series continues tonight with Milwaukee's Carl Willey (2-2) pitching against Bob Purkey (5-3).

June Out of Tune For Redlegs' Jay

CINCINNATI (AP) — Joey Jay, king of May, found June out of tune for a few moments Monday night.

The Cincinnati Reds pitcher won six games without a defeat last month, and Monday was named the National League's player of the month for May.

Came his first June start Monday and in the first inning, his old Milwaukee teammates Ed Mathews and Joe Adcock slammed Jay's offerings for home runs among four hits that got the Braves off to a 3-0 lead.

But Joey got back in gear then and yielded just one hit and no runs over the next six innings. The Reds eventually won 5-3 but Jay left for a pinch hitter in the seventh with his side still trailing.

In May, he worked 50 innings and allowed 32 hits while walking 14. His earned run average was 2.70 and he struck out 38 batters.

Swaps, now in stud at John Galbreath's Darby Dan Farm in Lexington, Ky., set three world records at Hollywood Park as a 4-year-old in 1956.

Shutout Opener

DuPont, Savings Cop 1st BR Tilts

DuPont's George Reeser fashioned a three - hit whitewash job against the GE squad to pitch his team to a 4-0 victory in the Babe Ruth major league lid lifter last night at Ted Lewis Park.

DuPont hitters backed Reeser with a six - hit attack. Arnie Gabriel pounded out a pair of one-base knocks in three tries and Chet Iery connected for one base blow in two attempts.

Ed Evans got a single in two trips to the plate and Bruce Helwagen also had one-for-two. Reeser gave his own cause a batting boost with a well-tagged double in the fifth inning.

For the losing GE team, Bob Purcell slammed out one safety in a trio of tries. Bob Good got one for two and Mick Tomlinson slammed out a seventh-inning single for his only hit in three trips.

GERALD Leasure got the nod for the opening GE mound assignment and held DuPont scoreless for two stanzas. Then the winners broke the ice on the 1961 scoring derby with a single counter in the bottom of the third. Gabriel came across the plate on Chet Iery's single after he had walked a nd advanced to third on a wild throw.

DuPont tallied another run in the next frame and sewed up the verdict with a two-run uprising that chased Leasure in the fifth. Dave Bass, switching from short-stop to the mound for GE, held DuPont at bay for the final two rounds.

In the kickoff of the 1961 Babe Ruth minor league competition, Robert Will's Savings Bank nine unleashed a torrid 11-hit assault to drop the Third National Bank outfit, 6-4.

The Third boys opened quickly, with leadoff man Larry Smallwood coming home after he had singled to open the season.

Steve McManas, second man up, also hit for a one-baser and Harold Gray brought Smallwood in with a third single.

LARRY SYKES, Savings Bank hurler, settled down after the unnerving opening to retire the side without further damage. His control went haywire again in the second frame, as he issued five walks. He got out of it with only one run scored, though, as he whiffed two batters and a third was forced out.

Savings came back with a blast in the bottom of the first, counting three markers on walks, errors and a healthy double by Jerry Cole. Lew Jordas tallied the fourth Savings run in the second, again on a safety by Cole, this time a single.

Bill Huffman gave the winners two more runs in the third with a resounding home run poke which scored Haddock.

The contest, abbreviated to four innings due to darkness, saw Charles Griffey chalk up the

Longshot Wins Feature Pace at Scioto Downs

COLUMBUS, Ohio (AP)—Easter Sunday Bars, a longshot, won the featured seventh race for Class C pacers at Scioto Downs Monday night.

Trained and driven by George Ursitti, the winner took over at the half-mile pole and covered the mile in 2:07 4-5 in upsetting favored Double Star. The winner paid \$39.

1. Cord of Thanks

In loving memory of our dear son, Donald Eugene Sabine who passed away June 6, 1957.
As we walk in our garden of memories there midst the blossoms of life we find in that beautiful garden Forget-me-nots blooming for you. You left a beautiful memory. And a sorrow too great to be told. But for you who have loved and lost you That memory will never grow old.
Sadly missed by Mother, Dad and foster sister Ekvonne.

2. Special Notice

PICK YOUR OWN STRAWBERRIES, 20 cents per quart. Bring your own container or boxes furnished at 2 cents each. Hours 7 a. m. to 5 p. m. Monday thru Saturday. No Sunday picking. Robert S. Elser, North on old Route 23.

BATTING AGAIN—Chairman Estes Kefauver (left) of the Senate Judiciary Sub-committee compares fists with former heavyweight champs Jack Dempsey (right) and Gene Tunney following their testimony on Kefauver's proposed legislation for creation of a boxing "czar." Both former fighters favored the proposal, and Dempsey called for cleansing of criminals and selfish men from the sport.

Cleveland Presses AL Front-Runners

By THE ASSOCIATED PRESS
The Cleveland Indians closed within one game of front-running Detroit in the American League race by beating Washington 7-5 for their seventh straight victory Monday night while the Chicago White Sox beat the Tigers 6-2.

Reliever Barry Latman won his fourth of four innings of two-hit, shutout relief for the Tribe, and broke a 5-5 tie with a triple.

New York swept a two-night doubleheader from Minnesota 6-1 and 6-2, the Los Angeles Angels defeated Baltimore 3-0 on the sixth hit pitching of Ron Moeller and Kansas City split a doubleheader at Boston, winning 10-6 after the Red Sox took the opener 6-2.

In the National League, Cincinnati defeated Milwaukee 5-3 and climbed back on top by a half-game over the Los Angeles Dodgers, who were beaten 5-2 by Pittsburgh. Philadelphia dropped San Francisco to third, 3-2, and St. Louis out-slugged Chicago's Cubs 10-8.

The Indians, after blowing 3-0 and 5-3 leads behind starter Johnny Antonelli and Bobby Locke, finally made it with two unearned runs in the seventh at Washington against losing reliever John Gahler (2-2). Latman's two-out triple triggered the rally and gave the bullpen three victories and three saves in the Tribe's seven-game streak.

Cleveland collected 15 hits—including a 4-for-4 show by the three pitchers—with Jimmy Piersall cracking a triple and three singles and Johnny Romano extended his hit streak through 20 games with a double.

Frank Baumann (4-4) allowed seven hits while pitching the first shutout by the White Sox staff and became the first left to go all the way against Detroit this season. He also had three hits and drove in three runs. Right-hander Phil Rean, a five-game winner for Detroit, lost his second in a row when the Sox scored twice in the second inning on two walks and singles by Jim Landis and Sherm Lollar.

The Yankees set AL home run records for 13 and 14 consecutive games while trailing the Twins with an 11-game losing string. A three-run, pinch homer by Johnny Blanchard did it in the seventh inning of the opener, and Mickey Mantle then remained a tie for the AL lead with his 15th, a two-run shot, in the eighth. That made it 27 home runs in 13 games for New York, and Tony Kubek made it 28 for 14 in the nightcap with a two-run homer in the seventh that gave the Yankee shortstop a 14-game hitting streak.

Jim Kouss (6-2) won his fifth in a row, first as a starter, with relief by Luis Arroyo in the opener. Rookie Roland Sheldon (2-2) then pitched his first complete game with a six-hitter in the sec-

ond game, clinching it with his first major league hit, a two-run single, in the fifth. Don Lee and Chuck Stobbs, both 0-2, were the losers.

Ted Kluszewski hammered a two-run homer in the first inning for the Angels off Hec Brown (5-2), who had won four in a row. It was Klus's sixth hit off Baltimore pitching this season—all home runs. Moeller, an ex-Bird, struck out nine—fanning Brooks Robinson and Jim Gentile with the bases loaded in the fifth and whiffing Jerry Adair and pinch-hitter Dave Philley with two on in the sixth. It was his first victory and complete game in the majors.

Mike Fornieles (2-2) gave up 10 hits but went all the way while making his first start in three seasons for Boston in the opener. Frank Malzone's single broke a 2-2 tie in the sixth off Ray Herbert (3-5). Joe Nuxhall (4-1) won the second game, with relief help from Bill Kunkel. Norm Siebern reached base eight times in a row for the A's in the twinbill, hitting a home run in a decisive five-run fifth in the second game. Reliever Dave Hillman (2-2) was the loser.

PASSING UP FOOTBALL—Bernie Allen, the East Liverpool, O., quarterback star of the Purdue University team, has been signed to a \$50,000 baseball bonus contract by the Minnesota Twins. Allen is an outstanding shortstop with the Boilermaker team.

Views on TV-Radio

By CYNTHIA LOWRY
AP TV-Radio Writer

NEW YORK (AP)—It would be really nice if some of the season's commercials were heading for oblivion along with all those network entertainment programs which won't be back next fall.

Every viewer has his own candidates for extinction, but I could manage to struggle along without:

The jolly demonstration of a wash-day product involving two small boys heaving chocolate pies at a clean table cloth and mopping up with dainty towels a floor covered by a nauseous mess of gravy, soup and sauce.

The rude, aggressively snooty neighbor who walks into the housewife's kitchen and proceeds to order her to use a certain soap.

The "scientific machines" that demonstrate how fast pills dissolve, how a woman can breathe out of only one nostril and how bad an onion smells.

The couples, obviously madly in love with each other, who spend their precious time together sentimentally describing how mild and satisfying their cigarettes are.

The announcers with authoritative "doctor voices" prescribing reducing aids or headache pills.

The athletes attributing all their skill and vitality to one brand of bread or cereal.

Those filthy sinks that the scouring powder cleans without even scrubbing.

Dave Garroway obviously is going to leave NBC's "Today Show," as he requested, but the date of departure is still up in the air. Garroway was planning to take things easy this summer by taping a couple of shows one day each week anyway.

John Daly is considered the most logical replacement, but network officials say that a number of names have been submitted for consideration.

Recommended tonight: "Summer on Ice," NBC, 10-11 (EDT)—skating show with Peter Lawford and Peggy Lee; Garry Moore Show, CBS, 10-11—with guest stars Alan King, Eileen Farrell and the Jonah Jones Quartet.

4 Keglers Lead League Scoring

Bruce Stevenson hit a high men's singles game of 200 on the way to a winning series of 518 in the latest Mixed Couples Summer League bowling competition at Prairie Lanes.

June Sparks topped women's singles efforts with 173. Jo Ellen Loy and Francis Woods tied for series honors with identical totals of 428.

Team No. 4 hit the top singles game of 645. Team No. 10 rebounded to pace series totals with 1,790 pins. June Sparks converted the only two splits recorded during the evening, the 5-6 and 7-5-10 shots.

All scores were computed without handicaps.

Re-Exams for All Ohio Drivers Urged

DAYTON, Ohio (AP)—The Ohio Professional Driver Education Association has recommended that the state periodically re-examine all drivers.

In a message sent to Gov. Michael DiSalle the association said this action would be a constructive means of reducing property damage and loss of life on Ohio's roads and highways.

At a meeting in Dayton Sunday, the association also commended the state's action in requiring examination of applications for temporary driving permits. Until recently applicants were not examined until they took written and practical tests for permanent permits.

Jockey Johnny Sellers equaled Bill Hartack's 1957 riding record at Hialeah last winter by taking six stakes races.

Police, Fire Pension Funds Show Increase

Pension and relief funds of municipal police and fire departments in Ohio had total assets in excess of 47 million dollars on January 1, according to State Auditor James A. Rhodes' annual report showing the amount of state subsidy paid to these funds.

This is an increase of more than five million dollars in assets during 1960.

A total of \$15,391.54 was put into the Circleville Police and Firemen's pension and relief fund last year in a tax distribution, according to Marvin Turner, city auditor. A four per cent salary deduction for the fund totalled \$3,167.29 for the two city departments.

Police pension funds reported total assets of \$25,915,009 with all but 18 of the 253 police relief and pension funds filing reports for 1960.

Firemen's pension funds, with 11 out of 145 not reporting, showed total assets of \$21,226,672 at the beginning of the year.

Rhodes' report shows that, since the state started paying a subsidy to these pension funds in 1947, the state has paid \$18.6 million, of which more than \$14 million was paid between 1947 and 1957. The police relief and pension funds have received \$9.5 million, and the firemen's fund \$9.1 million from the state.

During 1960 only 13 of the 253 police pension funds were eligible to receive the state subsidy, while 14 of the 145 firemen's funds qualified for state aid. State subsidy payments in 1960 amounted to \$1.1 million, with \$698,000 going to police pension funds and \$423,000, to firemen's pension funds.

Most of the money going into these funds comes from a tax levy of three-tenths of a mill on each one on all real estate and personal property in the municipality, and a four per cent assessment on the salary of each policeman or fireman.

When the state started paying a subsidy to these funds in 1947, total assets of the two pension funds were \$4.8 million. They have increased almost tenfold in the 14 years since then.

In villages, townships and certain cities where there are no paid firemen there is a Volunteer Firemen's Dependents' Fund. These are supported entirely by contributions made by the municipality or township, ranging from \$300 to \$500. There are 884 such funds in the state.

3-Alarm Fire Rages In Cleveland Store

CLEVELAND (AP)—Sixty firemen fought a three-alarm fire that caused an estimated \$55,000 damage to a furniture store on the East Side Monday night.

Firemen had to kick in basement windows at Capra's Furniture & Appliance, Inc., 8806 Hough Ave., in order to shoot water on the blaze from kneeling position. Six firemen said they were thrown six or seven feet through the air by a backdraft which built up when they forced open a metal fire door. They were not seriously hurt.

Engineer Fatally Burned In Station Explosion

CANTON, Ohio (AP) — Claude Cline, 62, an Ashland Oil & Refining Co. station engineer burned severely in an explosion and fire at the company's pumping station, died in Aultman Hospital Monday night.

Cline, of East Sparta, died of extensive third-degree burns over most of his body. He was the only worker on duty when two explosions and fire rocked the pumping station Sunday night. He was switching valves on a manifold to regulate the flow of liquid into underground pipes when the explosions occurred.

Whites for meringues should be beaten stiff but not dry. Soft meringues call for less sugar than hard meringues.

MARTY DORE'S Scholarship Award Goes To Miss Dore

Miss Marty Dore, daughter of Mr. and Mrs. Felix Dore of Ashville, was the recipient of the Louise Millar Cromley scholarship Award presented by Mrs. Tom Furcell, president of the Ashville Women's Civic Club, at graduation ceremonies held May 27 in the school auditorium.

The club donates the annual award to an Ashville graduating senior who will enter the field of education.

Miss Dore has been prominent in the school activities while attending high school. She has been a member of the Student Council for four years, a member of the National Honor Society her junior and senior years, editor of the "Bronco" school paper her senior year and assistant editor her junior year. Her outside activities includes four years as a 4-H member and singing in the First English Lutheran Church choir.

She worked last summer at the State Highway Department in Columbus and plans to hold the same job this summer.

This fall she will enter Capital University, Columbus, where she will major in business education.

U.N. Labeled As Flop as Peacekeeper

CAPE TOWN, South Africa (AP)—President Charles R. Swart of the new Republic of South Africa declared today the United Nations has failed in its duty of preserving world peace.

Swart said that instead of performing the duties for which it was created, the United Nations had become an organization which entered—or tried to interfere—in the internal affairs of member countries, including South Africa.

Swart, in his first address to Parliament since the nation became a republic last week, declared: "The government of the Republic of South Africa will resist by every means at its disposal any invasion of its internal affairs."

The Afrikaner meant specifically criticism of South Africa's racial segregation policies, which were investigated earlier this year personally by U. N. Secretary-General Dag Hammarskjöld, and second, U.N. attempts to send an investigation team into the mandated territory of South West Africa, which the South African government has refused to countenance.

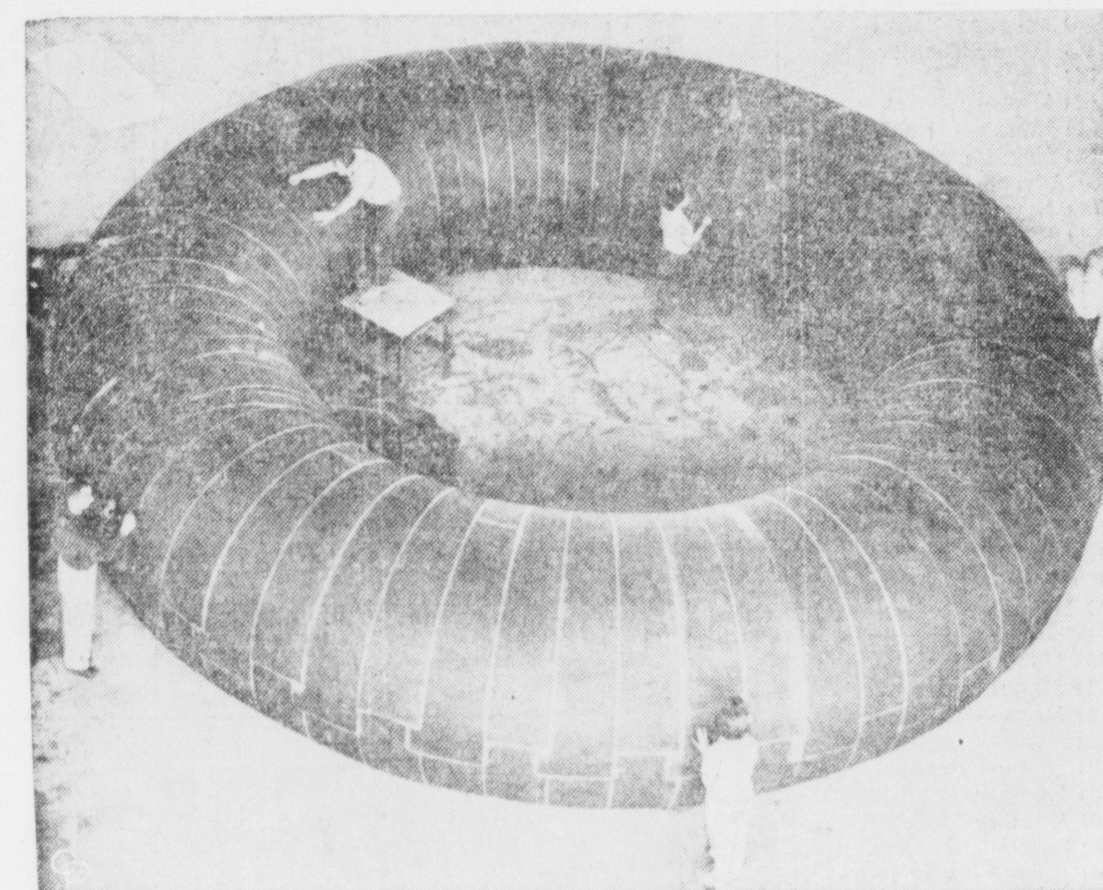

Lost and Found

DES MOINES, Iowa (AP) — Wanda Lane of Des Moines called police the other day to report that clothing she valued at \$50 had been stolen the night before from the clothes line at her home.

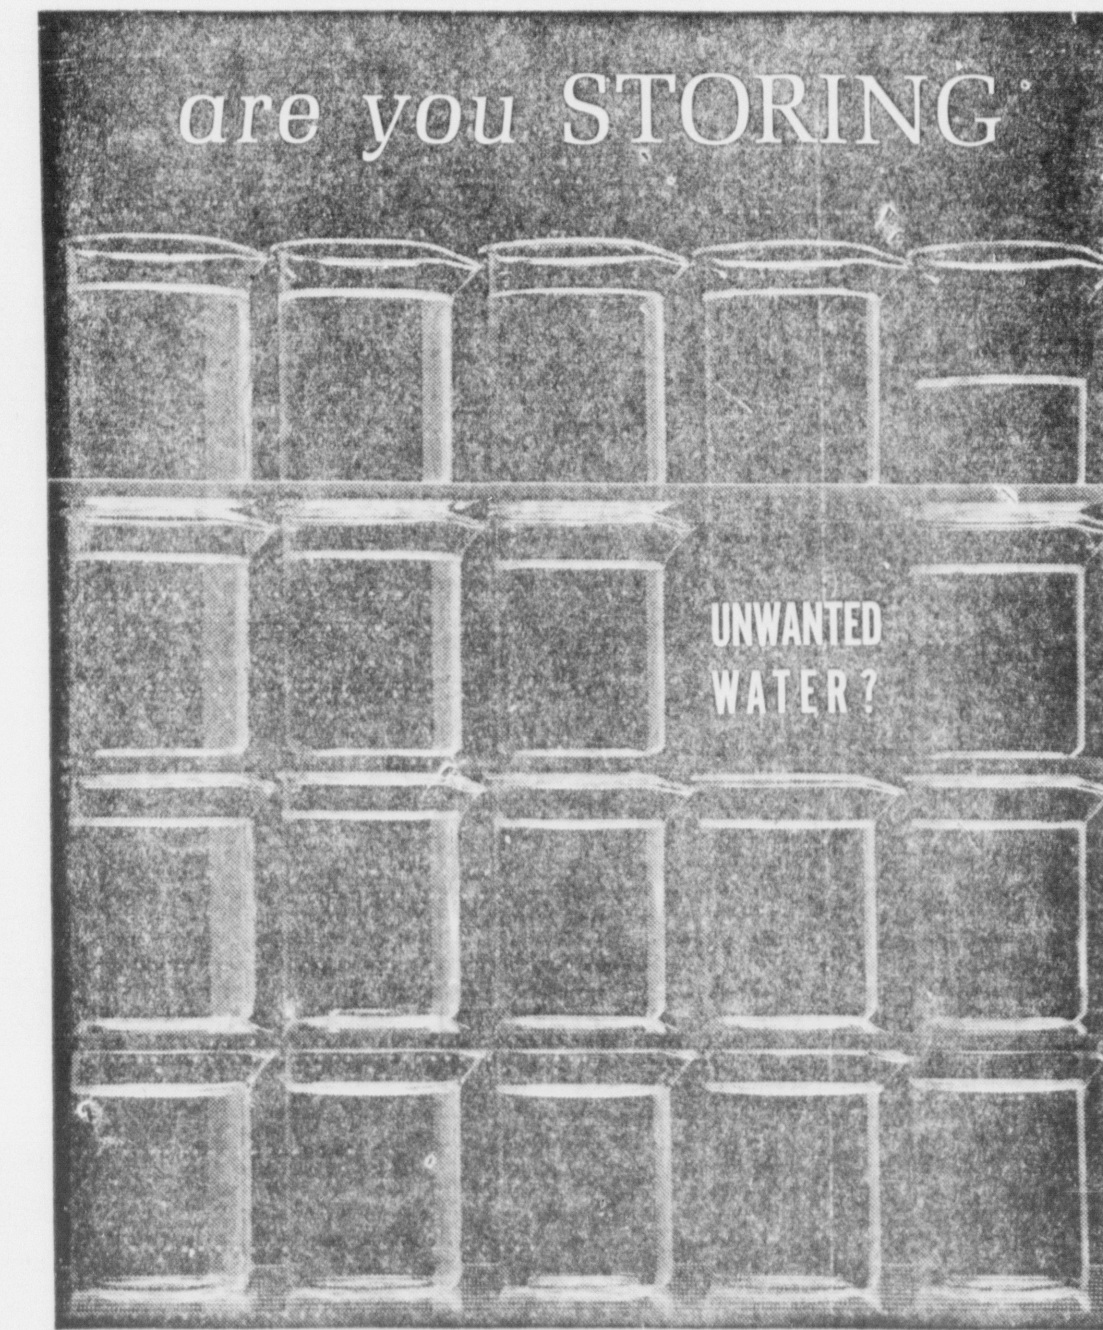

A few minutes later she called back and asked police to cancel her report. She added: "A good Samaritan took the clothes down and left them in a basket on the back porch."

BITE WORSE THAN BARK—Robert Tait, 34, is shown (lower right) under arrest in San Francisco after his four boxer dogs (shown in SPCA kennel) attacked four boys in a city park. Three of the boys made it up trees, but the fourth, Drew Robinson, 11, was mauled. Here (upper right) he shows some of the wounds. Tait admitted the dogs had bitten six persons. He had been warned previously because of similar attacks by his dogs.

'OUTERTUBE'—This giant innertube-like thing at the Goodyear plant in Akron, O., really is an "outertube," a 30-foot expandable space station which could be inflated to permit one or more persons to live and work inside while orbiting around Earth. Goodyear built a 24-footer for NASA to experiment with, and this one the company will use in similar tests. A doughnut like this could be 100 feet in diameter, they say. (Central Press)

Get an ELECTRIC DEHUMIDIFIER

An electric dehumidifier will remove from the air in your home over 18 pints of water in 24 hours for as little as 4c a day.

Just connect your dehumidifier to a convenient electrical outlet. Most models operate automatically, with a humidistat.

Try before you buy! Ask any electric appliance dealer who displays this window banner about the 7 day free home trial.

Three Churches Conducting Vacation Bible School Here

Vacation Bible School got underway yesterday in three of Circleville's church parishes.

The Church of Christ in Christian Union reported the largest enrollment in the vacation school's history. A total of 215 reported for classes.

Thirty-one workers complete the staff that will supervise the students through June 16.

The First Methodist Church reported an enrollment of 145 children for the first day of class. This almost doubles the enrollment of last year, according to Mrs.

George Lawson, dean of the school.

MRS. LAWSON said children may still enroll for the Vacation Bible School. She said the school bus has facilities for children from four to 14-year-olds.

Seven classes meet daily, Monday through Friday, from 9-11:30 a. m.

The third Bible School is being conducted at Trinity Lutheran Church. The enrollment there will be announced later.

Boy Forced To Take Gold From Corpses

JERUSALEM (AP) — A young Jew told the Eichmann trial court today that at 13 he was forced to tract the gold teeth from bodies of gassed victims in the Chelmo concentration camp.

Simon Srebnik, a Polish-born mechanic now in Israel, testified he saw an average of 1,200 Jews paraded to their deaths daily over a period of nine months.

The routine was always the same, he said. The Jews were given towels and soap and 80 to 100 at a time were herded into a big van and driven away.

"The doors were hermetically sealed," he said. "When the van moved on, the gas would enter it and in this way they all were killed."

Srebnik's job was to pull gold out of the teeth of the bodies on their arrival at the crematorium. "I do not sleep well at night. Those horrid pictures are still haunting me," the witness said.

Attorney General Gideon Hausner said Adolf Eichmann—on trial as director of the Nazi extermination of six million Jews—was responsible for the Jews being sent to such death camps and "therefore is responsible for what happened to them there."

Srebnik said all the Jews forced into the operational work of the death camp were chained night and day.

Ashville Students Eye Boys State

Tom Rathburn and David Newton of the Ashville - Harrison High School Junior Class will leave Thursday for Ohio University to attend Boy's State.

The American Legion sponsored school in practical government will continue to June 17.

The boys this year are sponsored by the Future Teacher's group and the Ashville PTA, through the American Legion Post No. 730 of Ashville.

Too Many Medics Fail To Admit 'Don't Know'

PITTSBURGH (AP)—Too many doctors won't admit they don't know what ails a patient, says a Pittsburgh physician, Dr. Campbell Moses, writing in the current publication of the Allegheny County Medical Society.

Dr. Moses said the most difficult words for some doctors to say are—"I don't know," and warned that the result can be an incorrect diagnosis and serious complications.

Most Powerful Home Dehumidifier

Fedders dehumidifiers rank first when measured by the only real test of dehumidifier capacity—"moisture removed under constant temperature-humidity conditions in 24 hours." Under extreme test conditions a Fedders dehumidifier removed more than 4 gallons of moisture in a 24 hour period... besting seven other brands. Don't be taken-in by dehumidifier claims rated in terms of cubic feet. They're scientifically and legally invalid since they do not specify the temperature-humidity conditions or the actual moisture removed.
